

BATTLE OF VERDUN IS RAGING FURIOUSLY

Paris Claims Heavy Reinforcements Have Reached the French Lines and Advance Is Checked.

Berlin Contents That Forces of the Crown Prince Continue to Make Substantial Gains.

(Associated Press Cable)

London, February 28. — The great battle of Verdun, now entering its second week, is continuing with unabated fury, with the German armies driving hard at the French defenses.

Paris asserts that with the pouring in of heavy reinforcements the German advance has been checked, but Berlin claims the continuation of the forward march on the French stronghold.

Along the Meuse to the north of Verdun the Germans have been unable to make as rapid progress as in the initial stages of the battle, and even on the Woëvre front where the French at first fell back, they now appear to be offering effective resistance. The pressure here is particularly menacing to the fortress.

The French defensive operations at places are taking on the nature of a counter offensive, as in the attacks on Fort Douaumont, four miles northwest of Verdun.

The German accounts fail to agree with the French version of the fighting, Berlin having announced further advances for the Crown Prince's troops, including the taking of Hardaumont and the village of Champeuville, on the German right flank, while the French attacks on Fort Douaumont were repulsed.

The French themselves do not claim the recapture of this outlying defense of the main fortress, but declare that the Germans who had gained a foothold to the east and west of this position were being hard pressed, maintaining themselves with great difficulty.

The sinking of the Russian steamship Petshenga has been announced. Fifteen of those on board were saved.

Berlin, February 28. — Although other advances have been made by the Germans north of Verdun, no changes of great importance are reported in the War Office statement issued this afternoon.

An offensive has been inaugurated by the Germans in the Champagne sector, resulting in the capture of positions for a distance of 1-1/2 miles. It is said more than 1,000 men were made prisoners.

SCORES PERISH WHEN STEAMER MALOJA SUNK

(Associated Press Cable)

London, February 28. — Of the total of 411 passengers and crew of the steamship Maloja, which was sunk two and a half miles off Dover yesterday after striking a mine, only 260 are known to have been saved. The names of 64 passengers saved have been received at the steamship company's offices.

The British press is almost unanimous in assuming that the Maloja and other vessels sunk by mines during the week end were victims of a fresh sowing of German mines.

GERMANY'S FINAL NOTE PRESENTED TO LANSING WILL MAINTAIN PLEDGE

Insists That Instructions to Submarine Commanders Will Not Be Modified.

Extra Precautions Will Be Taken to Protect Unarmed Vessels.

Armed Liners Will Be Treated as Warships and Are Subject to Be Sunk Without Warning.

By Associated Press Dispatch.

Washington, February 28. — In a note presented to Secretary Lansing today by Count von Bernstorff, the German ambassador, Germany assures the United States that it has no intention of revoking the pledges given in the Lusitania case.

The note says Germany can conceive of no reason for changing or postponing the new instructions to her submarine commanders to treat as warships enemy merchant ships armed "defensively," and that special precautions have been taken to prevent ships that are not armed from being attacked.

The note at the outset reiterates the previous pledges which were given on September 1 and October 5 last year for the safety of unresisting liners, and then goes on to say the German government does not believe those assurances have been modified by the new memorandum.

The note then sets forth that the German government did not issue its new instructions to submarine commanders until after it had come into possession of confidential instructions by the British government to the commanders of British merchantmen.

It is denied that armed British merchant ships of any description are peaceful traders, and it is declared that the armament on board all of them is to be used especially for purposes of attack.

It declares that the German submarine commanders have been so instructed that they will not destroy a merchant ship on a question of armament unless it is known positively that such armament exists.

The declaration that previous pledges will not be revoked is also formally given.

It was understood that the note would be brought to the attention of President Wilson before night, and that nothing definite regarding it would be decided until after it had been submitted to the Cabinet tomorrow.

PLEAD GUILTY TO MURDER CHARGE

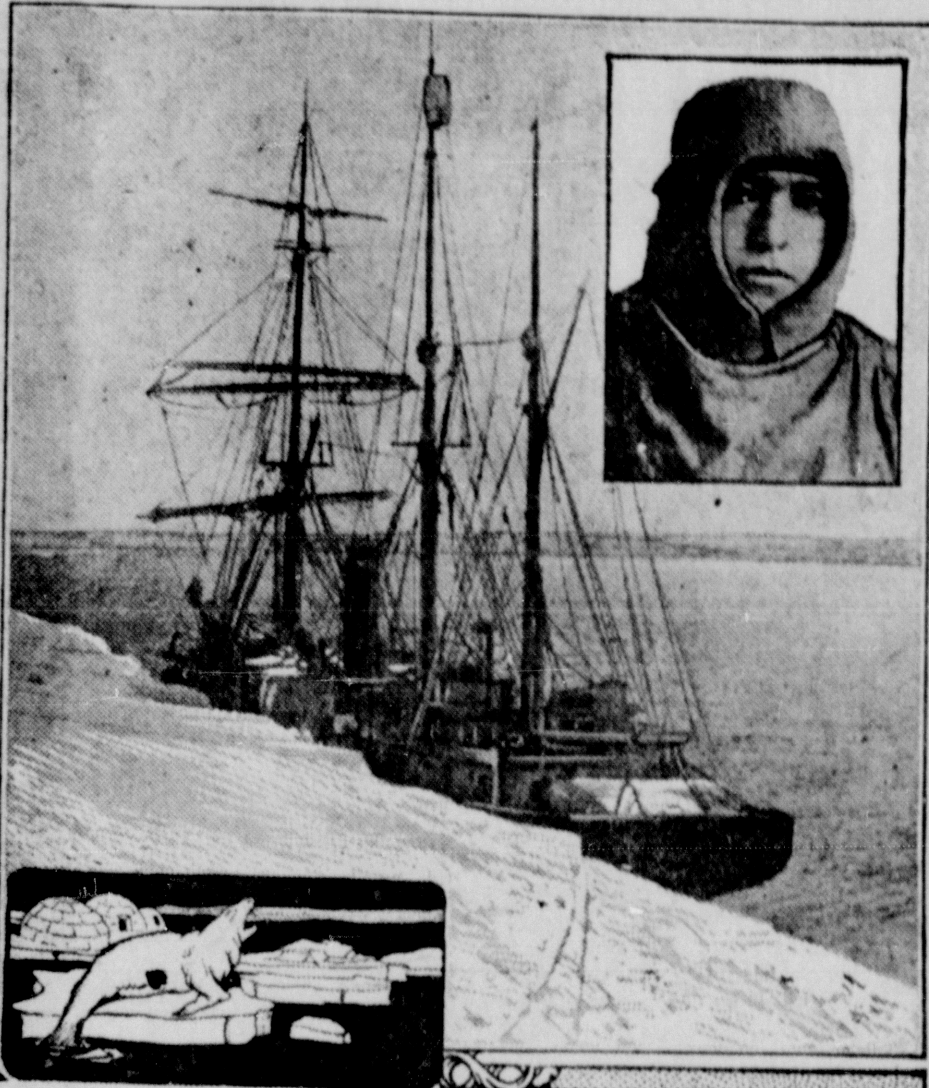

By Associated Press Dispatch.

Pittsburg, February 28. — William McClure and Joseph White, who allege they were paid \$50 by Aaron Fell to attack his mother-in-law, Mrs. Caroline Viehmier, pleaded guilty to the woman's murder today.

Fell is to be tried for complicity in the crime.

He is said to have instigated the attack in order that he might obtain possession of a note for \$4,000 which the woman held against him.

PIGEONS CARRY HOG CHOLERA

Pigeons are responsible for about 20 per cent of the spread of hog cholera according to the authorities who are dealing with its eradication. The farmer who owns or harbors pigeons should either confine them at home or dispose of them. Pigeons fly from farm to farm in search of food which they generally find in the feed yards.

In flying long distances and visiting many yards they easily get the germs on their feet and infect a neighborhood before people realize that cholera is in their herds. In 1915 the loss from hog cholera in the United States was estimated at \$750,000,000, and if one-fifth of this can be attributed to pigeons, they will have to go. — Agriculture Bulletin.

Caddy was killed in action at Chickamauga, and Capt. Thos. Rains near Atlanta Aug. 19, 1864. — National Tribune.

BIG LINER LOST IN THE CHANNEL

Struck Floating Mine Off the City of Dover.

150 PERSONS LOSE LIVES

British Steamer Maloja, Carrying More Than 400 People, Blows Up and Sinks Within Thirty Minutes—Another British Vessel, Engaged in Rescue Work, Hits Mine and Quickly Founders.

London, Feb. 28.—Struck by a floating mine, the British passenger steamer Maloja of the Peninsular and Oriental line, sank within thirty minutes between Dover and Folkestone. The afterpart of the vessel was blown up. The accident occurred Sunday forenoon.

There were 119 passengers and a crew of about 300 on board.

At a late hour it was estimated that 147 persons were drowned or killed as a result of the accident, 117 of whom were seamen.

No Americans are believed to have been aboard. The mine which caused the Maloja's destruction is believed to have been one of the large nets spread by the British navy for the protection of England's coast against German naval raiders.

While helping in the rescue work the British steamship Empress of Fort William, of 1,383 tons gross, herself struck a mine within half a mile of the sinking Maloja and immediately began to settle her stern and forepart. She kept above the water long enough to enable the crew to take to the boats, then suddenly exploded and disappeared in a cloud of steam.

A third victim of a mine was the Dutch mail boat Mecklenburg. Passengers and crew were saved by two Dutch steamships. In consequence of the Mecklenburg's sinking the service between Holland and England was stopped.

The Maloja, one of the most stately liners in the British passenger service, was bound from London to Bombay. She was the sister ship of the Persia, which was sunk—from a thus far unknown cause—off the island of Crete on Dec. 30, with the loss of 336 persons out of 450 on board. Among those lost with the Persia was the American consul to Aden, Robert N. McNeely.

A large number of mail sacks were lost with the Maloja. The rescue of the majority of the passengers is ascribed by the Peninsular and Oriental line to the fact that only Saturday evening the Maloja's captain had instructed the passengers in the use of life belts. The behavior of both passengers and crew is characterized in an official statement of the line as "splendid."

Hundreds Rescued.

The explosion which followed the Maloja's collision with the mine was the sign for innumerable large and small craft to hurry to her assistance. Within a few minutes the sinking vessel was surrounded by a swarm of steamships, trawlers, tugs, lighters, boats, and even small warships.

There was a stormy sea, however, and the rescue work was made under difficult circumstances. These were rendered still worse by the sudden explosion on the Empress of Fort William, which divided the rescue vessels and added greatly to the dramatic element of the situation. A remarkable feature is the assertion that there was no panic. The simultaneous sinking of the two vessels, both destroyed by a mine, with hundreds of men and women in the water struggling for their lives, offered one of the most spectacular scenes ever witnessed off Dover.

The Peninsular and Oriental line statement, after telling of the cause, time and scene of the disaster, said: "The after part of the ship was blown up. There was a high sea and the captain seeing that extensive damage

had been done tried to beach the liner, but was unsuccessful in this, the engine room being full of water. The vessel sank in about half an hour. The survivors were landed at Dover.

The Maloja sank about two miles off shore. The explosion was heard and seen at Dover and tugs and motor boats raced promptly to her aid. Patrol boats also responded speedily to the Maloja's distress calls.

DECLARES HE WOULD AVOID WAR

President Wilson Makes Serious Talk at Gridiron Dinner.

Washington, Feb. 28.—President Wilson told members of the Gridiron club and its guests at the annual dinner of the organization that violation of the essential traditions of America would be the only justification for the United States entering the European war.

"America ought to keep out of this war," said the president, "she ought to keep out of this war at the sacrifice of everything except this single thing upon which her character and history are founded, her sense of humanity and justice. If she sacrifices that she has ceased to be America; she has ceased to entertain and to love the traditions which have made us proud to be Americans, and when we go about seeking safety at the expense of humanity, then I for one will believe that I have been mistaken in what I have conceived to be the spirit of American history."

President Wilson evidently had the revolt in congress against his foreign policy in mind when he made this observation: "I would a great deal rather know what they are talking about around quiet firesides all over this country than what they are talking about in the cloakrooms of congress."

President Wilson's speech was regarded as an answer to criticisms by senators and representatives that his present negotiations with Germany might plunge the country into war. Mr. Wilson was frequently cheered in the course of his address and was given an ovation as he took his seat, being obliged to arise and bow his acknowledgements.

In closing the president made this statement: "Valor is self-respecting. Valor is circumspect. Valor strikes only when it is right to strike. Valor withholds itself from all small complications and entanglements and waits for the great opportunity when the sword will flash as if it carried the light of heaven upon its blade."

Every college man with a three months' vacation in summer, he said, should devote five weeks of training for the defense of the country, as a concrete manifestation of patriotism. "A manifestation," he added, "that would be more patriotic than any word of songs or banner waving."

For two weeks they have been fighting the bill in a more or less haphazard manner, but they propose this week to centralize their efforts in the hope of amending the measure to the satisfaction of the conservation forces.

Senator Huston of Wisconsin, who has had co-operation of other senators, will propose a substitute to the Shields bill with regulatory features, which he declares will safeguard the public interest and prevent monopolization of water power facilities.

As soon as an opportunity is afforded Senator Robinson of Arkansas will make an effort to have passed his resolution providing for an inquiry into the aviation service of the army against which he has filed serious charges of inefficiency.

Progress is being made on general appropriation bills, but leaders in both houses are again complaining over delay in legislative accomplishments and another speeding up order has been sent out all along the line.

A Monstrous Proposal

The proposal to use parts of the big Lima state hospital—erected to house and care for the criminally insane—for the treatment of Ohioans who are victims of the drug habit appeals with great force.

No doubt the estimate of officials that there are thousands of men and women in Ohio suffering from the use of habit forming drugs, is correct.

Thousands of people in this state who have been chained to the drug habit are now suffering indescribable tortures because of the rigid enforcement of federal and state laws which make it impossible for them to secure drugs to relieve their tortures. The legislatures of the nation and state have taken these drugs away from the victims, and rightly so, but have failed utterly to make any provision for the treatment of the unfortunates.

The Lima hospital is an immense institution, capable of housing many thousands more inmates than are now committed there. It should be utilized and there is no better object now in view than the treatment of drug victims.

The only unfortunate obstacle in the way of doing so is the absolute failure of the laws to cover cases of that kind.

Some profound officials have suggested that drug victims steal the drug they crave, submit to arrest and conviction and then be "legally" committed as "criminally" insane.

That's a monstrous proposal. The great state of Ohio can certainly provide for the unfortunate drug victims without compelling them to submit to a conviction of theft. A proposal of that sort is unworthy of any official of the state. The generous people of Ohio do not require that its unfortunates become criminals before it will extend the helping hand.

The aim is to reform and help. Not blacken and drag down.

Making War "Terrible."

The opinion is general among statesmen and students that the conflict in Europe could be brought to an end very speedily if the acquisition of territory, or the payment of indemnity was the chief aim of the warring nations. It seems generally agreed that Germany has offered to restore Belgium to the Belgians and that the Teutons would not be averse to paying full indemnity for the damage done to that nation.

Russia could attain the ambitions of centuries—the acquisition of Constantinople and a port in the warm waters. In return for the exactions Germany would make of the slav, respecting Galicia and Poland, compensation in Asia Minor and Turkey would be offered. Great Britain could keep the conquered German colonies, France attain a measure of revenge by the acquisition of a portion of Alsace and so on through the whole line according to the experts. But Germany, generally believed now, willing to accept honorable peace and restore the former balances, on slightly changed geographical lines, even though the victor in the land fighting thus far, receives no encouragement in her hope for peace.

What then? Simply this. England and France have been impressed with Germany's efforts to make war "terrible."

The Zeppelin raids, the under sea warfare, the violation of Belgium and the general disregard of all rules of civilized warfare by Germany have driven France and England to the belief that there can be no enduring peace in Europe until Germany is utterly crushed.

Peace with the German empire intact, they believe, would be only temporary and the menace an ever present one.

With England and France grimly determined to fight until Germany's military power is utterly crushed and with the central powers far from exhaustion, the prospects for peace in Europe are not encouraging.

The intense hatred and blind fury which marked the earlier stages of the war have given place to conscientious conviction that the war must be fought out to the end.

The allies have not yet reached, apparently, that stage where they are unmindful of the cost in men or money.

Germany began the war prepared and filled with the war spirit which counts not the cost of success. While the allies are yet appreciative of the ruthless slaughter of battle and are aiming to save both men and ammunition, Germany plunges through with their offensive movements with a force as yet irresistible.

Germany has made war "terrible" and so terrible that it may cost her that peace with honor which should come as a reward for the valor of her armies.

Poetry For Today

LEANING AND LIFTING.
There are two kinds of people on earth today.
Just two kinds of people, no more I say.
Not the saint and the sinner, for 'tis well understood
The good are half bad and the bad are half good;

Not the rich and the poor, for to count a man's wealth
You must first know the state of his conscience and health;
Not the humble and proud, for in Life's little span
Who puts on vain airs is not counted a man;

Not the happy and sad, for the swift flying years
Bring each man his laughter and each man his tears.
No! the two kinds of people on earth I mean
Are the people that lift and the people who lean.

Wherever you go you will find the world's masses
Are always divided in just these two classes;
And oddly enough you will find, too, I ween
There is only one lifter to twenty who lean.

In which class are you? Are you easing the load
Of over-taxed lifters who toil down the road?
Or are you a leaner who lets others bear
Your portion of labor and worry and care?
—Ella Wheeler Wilcox.

The dog attacked his sister, Miss Huberdy Was, who accompanied him. The physician saved her, but was himself bitten.

Body of Accident Victim Said to Be His.

Cincinnati.—Edward Riley of Detroit walked into the home of his sister, Mrs. Charles Becker, in East Fifth street, the other day and put a stop to his own funeral.

His weeping relatives at first stared. Then followed embraces, and the body of a man killed in an automobile accident in Detroit and sent here as that of Riley was removed to an undertaker's parlors.

Riley declares that the stranger whose burial as his came so near happening was Fred Ellis, a derelict, to whom he gave an old coat not long ago. At Detroit, according to the police, Mrs. Becker and her husband both recently identified the remains of the man, and on this identification a check for \$1,500 from an insurance company was presented at the Becker home here in payment of their loss. However, the real Mr. Riley refused to let his sister cash the check.

The Wayne county coroner at Detroit will be asked to direct the disposition of the body that was turned aside.

The presence of the two postcards from Mrs. Becker to Riley found in the coat, it is said, explained Riley's story.

HAS \$5 PATCH ON HIS SHOE.

Long Island Cobbler Fined For Working on Sunday.

New York.—"You have no more right to mend your own shoes on Sunday than I have to build my own house on the Sabbath," said Magistrate Conway in the Long Island City court, "and I shall have to fine you \$10."

Michael Morano, a shoemaker of 395 Hopkins avenue, Astoria, was the prisoner. A policeman found Morano working in his shop on the Sabbath and arrested him. When Morano was brought into court he admitted that he was repairing shoes, but said they were his own.

Morano said he did not have \$10, and his family was unable to raise the money. It looked as though the shoemaker would have to go to jail, but later the magistrate reduced the fine to \$5, which the prisoner was able to pay.

FARMERS' LOT MADE HARDER.

Mail by Motor Comes in Night Mostly. Curiosity Can't Wait.

Washington. — Motorcars on rural mail routes do not make a hit with farmers, according to Representative Gray of Indiana, who made a vigorous kick against the innovation in the house.

"The barking of the farm dog in the middle of the night instead of the crowing of the cock is now the signal that the postman has arrived," Mr. Gray said indignantly, "and the poor farmer is forced to go out with a lantern to see what has happened to his mail box."

Bride Finds Wealth in Attic.

Point Pleasant, Va.—While rummaging in the attic of her home the day following her recent marriage at Evans, near here, Mrs. John Board found \$1,500 in gold and many thousands in currency. The paper was folded together so the bills could not be separated. They were sent to the United States treasury department to be counted. The hoard was concealed under the floor of the attic.

The Unicorn.

Chinese annals of great antiquity contain numerous detailed accounts of the supposedly fabulous unicorn, in which the descriptions are identical with those handed down from the earliest times in the mythology of occidental countries. From this it is inferred that at some time in the remote past there actually did exist a single horned equine or cervine animal of some sort.

HOW JIM'S CLAIM WAS JUMPED

A Strange Episode of the Days of Forty-nine.

In the days when the forty-niners in California were hunting for the big mines that afterward became bonanzas a man appeared in Billion gulch and located a claim. He was a powerful fellow and a bully, and it was not long before his neighbors were afraid of him. He didn't trouble them to remember his name, and they gradually got used to calling him "Fighting Jim."

One day Jim told his neighbors he was going to San Francisco. He intended leaving his cabin unlocked and his claim unprotected "just for the fun," he said, "of seein' some galoot jumper, when I get back, bunkin' in the one or workin' the other." Then he added, "Ye'll see somepin happen." With this he departed.

There was none of the people of Billion gulch so rash as to interfere with either of Jim's properties. Several strangers came along, took a look at the claim, were duly warned and departed.

One day a young fellow came to the gulch, asked a great many questions about the prospects of gold, claims to be had and claims not to be had. Incidentally Jim's claim was mentioned, with the usual warning. That night a light was observed in Jim's cabin, and the next morning the stranger was at work in Jim's cabin. A self constituted committee of the most prominent citizens proceeded to the hole that had been dug and kindly informed the youngster that he was not only wasting his time, but that Jim, when he returned, would necessitate their burying the jumper at the public expense. The fellow put his hand in his pocket and taking out a bag of gold dust, remarked:

"I'm no sponge to bring unnecessary expense on my neighbors. Take that for security." With that he resumed his pick, and the committee departed to spread the news through the gulch that there was a lunatic working Jim's claim, and the gulch was sure on Jim's return to be disgraced by his first murder.

In a couple of weeks Jim returned. He gathered all he met into the principal saloon of the town to drink to his return, and several citizens took advantage of the fact to break the news of the jumping of his claim and his claim and to strive to induce Jim to bring no disgrace on the hitherto peaceful community. Their efforts were in vain. Jim had scarcely heard of the outrage when, hitching his revolver forward, he left the saloon in hot haste to wreak vengeance on the stranger. The crowd followed with bated breath. On nearing the mine the peaceful sound of the pick was heard. Jim, disdaining to take advantage of an unwarned enemy, strode up empty handed to the side of the hole. The jumper went on picking the earth, and Jim growled:

"Hello, you, there!"

The youngster turned his oval face, delicate except the mouth, which was firm as adamant, and replied:

"Hello, Jim!"

Jim stood paralyzed, and the jumper continued:

"I've understood from these people that ye're goin' to make hash o' me. If y' do, ye're a good deal changed from what y' were last time I saw y'. I reckon this western air must ha' put a lot o' starch into y'."

Still Jim stood mute, and those who had come to see him "chaw up" the stranger wondered.

"I want y' to understand," the jumper continued, "that this claim belongs to me. While y've been foolin' yer time away I've been busy a-workin' it. Now git down here and go to work. Gentlemen"—addressing the crowd—"the show's over. There isn't a-goin' to be any funeral today nor tomorrow nor none at all. So y' might as well go about yer business."

The party walked slowly away, leaving Jim and the jumper together. From that day Jim was a changed man. He talked no more of fighting, kept away from the saloon, devoting his time to the working of the claim, which had apparently passed into the control of the stranger. Then suddenly the jumper disappeared. As soon as he had gone Jim stopped work. His old associates expected that he would reveal the mystery, but he maintained absolute silence. Weeks passed, then months.

One day a letter came to Jim bearing a New York postmark. From the moment of its reception Jim was again changed. This time it was a different change; he was hilarious. He gathered the people of the gulch into the saloon and treated all round. Then he went to his cabin and to bed. The next morning the cabin was empty. Jim had disappeared.

"It's as plain as the nose on yer face," said the chief citizen. "Jim was wanted for murder. It wouldn't do no good for him to kill the jumper, since he'd been located; so he bribed him to go back and clear the coast for him to take to other cover. That letter told him that the p'lice had been fooled."

One day a party of professional miners appeared in the gulch and opened up Jim's claim, which proved to be one of the biggest mines in the country.

"Who sold you the mine?" queried the gulchers.
"James Flint and Jemima Flint, his wife. Flint came out and prospected. Then his wife came out, and it was she who went east and negotiated the sale to the company. They got a million for it."

SUIT OVER PAVING WILL PROBABLY BE DISMISSED

Court Expected to Sustain Demurrer Filed By Defendants and Suit Over Letting of Contract on South Main, Brought By Bolin & Wilt, Will Be Dismissed.

Judge Carpenter, within the next day or two, will hand down a decision in the case of Benjamin F. Bolin and Jas. S. Wilt, contractors, against the City of Washington. The Board of Control, Ex-Mayor Coffey, Ex-Safety Director Gerstner and Contractors Hefner & Son, and it is understood this decision will sustain the demurrer, dismissing the petition at the cost of the plaintiffs. The Court, it is understood, will hold that the plaintiffs are not vested with right to warrant action for

an injunction to prevent Contractors Hefner & Son doing the work under contract.

The suit, it will be recalled, was brought by Contractors Bolin and Wilt who underbid Hefner & Son on the South Main street paving job, by approximately \$2200, the plaintiffs holding that inasmuch as they were lowest bidders on the work, they were entitled to the contract.

The plaintiffs asked that the action of the Board of Control, in awarding the contract, be set aside, and that the contract be awarded to them at their bid.

An injunction to prevent the firm of Hefner & Son entering upon the work was asked.

The defendants filed a demurrer to the petition, and the demurrer argued before Judge Carpenter Saturday morning.

Whether the plaintiffs will carry the case up, is not known.

COURT DEFINES THE WORD "HOME"

Man Who Had Occupied House in This City for 15 Years, But Always Voted in Wayne Township, Where He Owned Farm, Held to Be Resident Here.

A man's home is his actual and habitual place of abode, his establishment, the place to which he returns when absent", according to the decision of the Court of Appeals in the case of James R. Mills, against R. S. Quinn, as treasurer of Fayette county.

The plaintiff according to a review of the case owned a large farm in Wayne township, but more than 15 years ago leased the farm and moved to this city, but claimed that his home was in Wayne township, where he listed his property, moneys and credits, except the household equipment in this city.

In 1911 the Board of Review decided that the plaintiff resided in the third ward in this city, and ordered moneys and credits in the sum of \$9,505.00 placed upon the tax duplicate in this city. The auditor complied, whereupon the plaintiff brought action to prevent collection of taxes on the above amount for the rate of taxation in the city.

The plaintiff brought out that he had always voted in Wayne township, made trips to and from the farm, sometimes staying over night or, infrequently, remaining more than one night, that he had always

intended returning to his farm property some day.

The court held that inasmuch as the house occupied by Mr. Mills in this city was the place to which he always returned, and that he had spent most of his time in this city since moving here, that it was his home, and ordered the case dismissed at his costs.

The plaintiff was represented by John Logan and the defendant by Prosecutor Maddox.

FALLS DOWN STEPS IS BADLY INJURED

Saturday afternoon Mrs. Belle Smith, of West Market street, sustained serious injuries by a fall down the steps at her home, fracturing both bones of one arm, several ribs and sustaining most painful cuts and bruises about the face.

Mrs. Smith was taken at once to the Hodson Hospital and an X-Ray examination was made.

She is resting as comfortably as possible today and will remain at the hospital for the present.

SCHOOL BOARD CASE DECISION

Appellate Court Confirms Decision of Lower Court and Holds Franklin Co. Court Action Void —Funds Held By School Board Are Distributed.

In the decision of the Court of appeals in the case of The Board of Education of the City of Washington against Chas. E. Bedwell, as receiver of Henry Karg, et al., the court sustained the decision of the lower court, making disbursement to the various lien holders.

The action was brought by the Board of Education that certain funds be properly distributed after the High School building in this city was completed, a receiver for Contractor Karg having been named before the local structure was completed, and when the receiver completed the work, and payment was to be made by the Board of Education, the Board wished to pay the money to the parties who should receive it, and asked the court to make distribution.

The Court of Appeals held that the application of counsel for Bedwell for a receiver in Franklin county, was made upon petition which did not contain allegations warranting appointment of a receiver, and the action of the court in making the appointment was void.

The court further found that the bank in which the funds have been located since the action started, is chargeable with all of the interest received on such funds since the petition was filed, providing the money was loaned, and if not loaned, should be charged with interest commencing 30 days after filing of the petition.

A number of local attorneys were interested in the action, Gregg, Patton & Gregg representing the Board of Education; Logan and Sanderson representing D. W. Schneider; one of the lien holders; Rankin & Rankin representing the H. G. Coffman & Co., lien holder; Post & Reid, representing the Pittsburg Glass Co. and Mr. Baker; Chas. S. Druggan, of the Structural Steel Co.

B & O. MAY CONDEMN TO OBTAIN ROADWAY

Indications are that unless an amicable adjustment is reached between the B. & O. S. W. railroad and P. J. Burke of this city, condemnation proceedings may be instituted to fix the price of and obtain a right of way over the Burke lands at a point near the ice factory to a point near the B. & O. coal tipple.

The B. & O. is said to have offered Mr. Burke \$2,000 for a right of way across the lots, but Mr. Burke asked \$5,000 and the next time he was approached, raised his price to \$6,000.

Final efforts are to be made at once to adjust the difference in order to make condemnation proceedings unnecessary.

Mrs. Pearl Shears, of East Market street, this city, underwent a serious operation at Mt. Carmel Hospital, Columbus, Friday, the operation being performed by Dr. Evan Brock. Friends will be glad to learn that she is getting along very nicely.

O. D. MARCHANT ON CIVIL SERVICE BOARD

Monday afternoon Mayor Oster appointed Mr. O. D. Marchant, Elm street grocer, to membership on the Washington Civil Service Commission for the period of six years.

Mr. Marchant is a Republican and succeeds Dr. C. E. Page, whose time expired some little time ago.

The new incumbent assumes his duties at once. The other members of the board are Dr. Roy Brown and W. A. Tharp.

WAYNE THE BANNER TOWNSHIP OF COUNTY

When it comes to paying taxes, Wayne township is the banner township of the county, every cent of realty having been paid by the taxpayers of that township, while in all other townships small amounts remain to be paid.

AUSPICIOUS OPENING OF GOOD HOPE CORN SHOW AND INSTITUTE

The eighteenth annual Farmers' Institute launched its opening session Monday morning, with President Frank E. Haines extending cordial greetings to a body of interested men and women.

Considering the bad roads the attendance for the opening session was excellent.

There was some delay in opening owing to the late arrival of State instructors, Mrs. Florence Willison and Mr. Frank Blackford, due to a tardy train.

Rev. Pfaltzgraf gave the invocation.

"Corn Culture Methods" was the subject of Mr. Blackford's address. Mr. Harry Middleton booked to lead the discussion.

"The Efficient Kitchen," was treated by Mrs. Willison in an address of much interest, especially to the feminine portion. Mrs. Ralph Braden was scheduled to lead the discussion.

Miss Bernice Boggs closed the morning session with a beautiful piano solo.

The afternoon session is being

conducted by the Domestic Science and Art department.

A splendid program is on for tonight; a special feature, a discussion on the Single Tax, Hon. Frank C. Parrett, Fayette's representative, answering Mr. E. W. Doty, single tax advocate.

It is expected that Tuesday's attendance will be very large, as the exceptionally fine program is worth making an effort to attend.

The Good Hope Ladies Aid society is serving dinner both days and dinners that are mighty hard to beat.

CORN SHOW.
The Corn Show and Domestic Science and Art Exhibit make excellent showing in the new Jr. O. U. A. M. hall.

There are between 80 and 90 entries in corn and the class is extremely good. H. W. Bussert is judging the corn this afternoon. Mrs. Robert Howat and Mrs. Val McCoy

are judging the exhibits of the Domestic Science and Art department.

CHICKEN THIEVES STILL AT LARGE

The police have been trying to locate chicken thieves, who, a few nights ago paid a visit to the hen roost of F. M. Fullerton, on North street, and succeeded in carrying off about 17 of his choicest fowls.

The thieves had taken every precaution to prevent the chickens making sufficient noise to arouse Mr. Fullerton, and had choked one of the fowls to death while endeavoring to suppress its squawks.

MASTERLY TALKS BY DR. CHAS. SHAW

Large and Appreciative Congregations Hear the Eminent Presbyterian Divine During Sunday.

Dr. Shaw preached two strong sermons Sunday to large congregations at the Presbyterian church, where, in the absence of Rev. Gage, he occupied the pulpit.

In the morning, the text was taken from the 91st psalm. "Thou shalt tread upon the Lion and Adder, the young Lion and the Dragon shalt thou trample under foot." He took the three creatures mentioned and types of three kinds of trouble, some or all of which will come to every child of God. We can gain the mastery, overcome them only as we habitually dwell in the secret place of the most high.

Dr. Shaw was present at the Sunday school session, and when those who decided for Christ were received by the Session of the church.

In the afternoon, he addressed the men at the Y. M. C. A. on "The Existence of God," what kind of a God He is, and how we may find him.

Saturday he preached in the tabernacle on the Way to God. Some rose for prayers and many came forward at the close of the service.

Sunday evening Dr. Shaw took for his text Mark 8:36, "What shall it profit a man if he shall gain the whole world and lose his life." Theme, Profit and Loss.

He said, in part:

"This text reminds me of an universal instinct. All merchants take an inventory at least once a year to ascertain their profit or loss. It is a wise and necessary procedure. The instinct to make the most of one's opportunities not wrong. Most men are endowed with the bump of acquisitiveness and within legitimate limits of exercise may be a blessing. This acquisitive instinct is seen in the white wings of our merchant navy as they carry the products of every clime. It is the brooding spirit over the busy whirl and hum of our factories, flooding the world's markets with our industries and gathering back the world's gold. The man diligent in business is fulfilling one law of his being. The peril lies in making these things ends in themselves and ignoring the claims of the Spirit.

"What constitutes true profit to any man? Only the things that minister to spiritual growth and char-

acter. It depends on which is first in the life, possessions or character. For to lose one's character in the attainment of anything is to lose oneself. If a man in making money for instance loses conscientiousness, truthfulness, care for what God thinks, sensitiveness of spirit, ie: himself, all heaped weeps. It is the loss of losses, the death of deaths, a catastrophe unequalled in extent, and unparalleled in its amount through all the universe of God. For what shall it profit a man if he gain the world and lose himself?"

The schedule for the week is as follows:

Monday at 7:30—"The Value of Time." No afternoon meeting.

Tuesday evening—"The Great Salvation." All day prayer meetings.

Wednesday evening—"Can God Forgive?"

Thursday evening—"The King's Business."

Friday evening—"The Judgment."

Dr. Shaw leaves for Cleveland Saturday morning, to be succeeded by Dr. J. Britain, who will give a series of Bible lectures all next week.

Mrs. Mortimer Clagens went to Columbus to meet her mother, Mrs. Fannie P. Ballard, who is returning from a visit of several weeks with a cousin, Miss Belle Hibben, in New York.

Many friends are glad to know that Miss Mame Adams is improving after a stay of several weeks at Mt. Carmel Hospital, Columbus. Miss Clara Davis, of this city, and Mr. and Mrs. Walter Draper of Cincinnati, spent Sunday with her.

REFUSE IMMUNITY TO ARMED LINERS

Germany Renews Pledge In Lusitania Case.

UNARMED VESSELS SAFE

Armed Merchantmen, However, Are Held Subject to Destruction Without Warning—Submarine Campaign to Begin March First, as Outlined in Berlin Decree—Von Bernstorff Receives Instructions From Home.

Washington, Feb. 28.—An outline of Germany's position regarding her intention of torpedoing all armed enemy ships without warning after Feb. 29 has been received by Ambassador Bernstorff. This outline will be presented to Secretary Lansing without delay. As foretold, the memorandum received may open the way for a discussion of the whole question of the distinction between merchant ships armed for defense and those armed for offense, but contrary to expectations of the state department and the embassy, the communication does not further discuss the operation of the new submarine campaign pending this discussion. The campaign will begin as scheduled on March 1.

In the memorandum just received at the German embassy the Berlin foreign office directs Ambassador Bernstorff to inform the American government that Germany is prepared to stand by her past assurances and does not regard her coming campaign against armed enemy craft as nullifying these assurances.

The attention of the American gov-

ernment is called to Germany's understanding that the Lusitania controversy in no way dealt with armed liners; that the first American note on the Lusitania case, dated May 13, 1915, specifically referred to the ship as being "unarmed."

In support of the German contention that the character of armament on merchant vessels does not insure its use merely for defense, Ambassador Bernstorff is directed to lay before Secretary Lansing two sets of evidence. The first includes alleged circumstances in about twenty-five cases investigated by the German authorities showing where enemy merchantmen have used their armament to attack German submarines and other German war craft on sight or after warning had been given the merchantmen to haul to and submit to visit and search.

The second batch of evidence which the ambassador is directed to lay before Mr. Lansing contains the copy of the British secret orders and supplementary instructions alleged by Germany to have been issued recently to all armed British merchantmen to use their defensive armament offensively against German and Austrian submarines.

Although the instructions show that Germany is unalterably opposed to any restrictions of her new submarine campaign, it is understood they are sufficiently broad to enable Ambassador Bernstorff to suggest to Mr. Lansing that Germany might modify her new campaign if the entente powers would give solemn guarantees to the United States that the defensive armament on their ships would never be used offensively. Meantime Count Von Bernstorff is directed, it is said, to urge upon the United States the advisability of warning Americans to keep off armed merchantmen of the belligerent countries.

OHIO NEWS

To Hear Bryan.

Columbus, Feb. 28.—William Jennings Bryan, former secretary of state, will speak in Columbus March 7, officers of the Anti-Militarist league, of which Dr. Gladden is president, announced. The subject of the address will be "Anti-Militarism."

Farmers File Protest.

Defiance, O., Feb. 28.—The Defiance County Farmers' institute, which has been attended by 2,000 country people, passed resolutions condemning the efforts of the postmaster general to lengthen the rural routes, assuming it would cripple the system.

Prosecutor Under Guard.

Cleveland, Feb. 28.—Detectives were assigned to guard Prosecuting Attorney Cyrus Locher following the receipt of threatening Black Hand letters by that official in the case of Louis Blanchetti, Italian chef, on trial for the murder of Dolores Evans, actress.

Brewery Aids Saloonists.

Toledo, Feb. 28.—Saloonkeepers of Toledo are to have their own life insurance risks. The new venture will apply to those saloonists who are patrons of a local brewery. Saloonkeepers have found it hard to get insurance companies to take a risk on their lives.

Three Injured In Collision.

Painesville, O., Feb. 28.—Three trainmen were seriously injured when in a rear-end freight collision on the New York Central railroad two miles west of this city. They are Forest Hathaway, fireman, Cleveland; C. J. Sweetland, conductor, Buffalo; W. H. Newcomb, engineer, Buffalo.

Faces Serious Charge.

Toledo, Feb. 28.—Richard F. McKay, superintendent of the police bureau of identification, well known in police circles throughout the country as an advocate of the Bertillon system of identification, was suspended by Chief of Police Henry Herbert at the direction of Safety Director John Newton. McKay is charged with conduct unbecoming an officer. It is alleged he was the author of letters to criminals.

All Delegates Selected.

Findlay, O., Feb. 28.—Delegates to the national convention to represent both parties in the Eighth district are as follows: Democrats—Delegates, Judge W. W. Bowers, Hardin county, and Ira Pontius, Wyandot county; alternates, William J. Schwenck, Crawford county, and Marcus B. Chase, Marion county. Republicans—Delegates, Frank Shaw, Morrow county, and Ralph D. Cole, Hancock county; alternates, A. G. Stoltz and Jacob Babst, Crawford county.

Ohio Missionaries Held.

Columbus, Feb. 28.—Word has just been received here from the American consul at Colombo that Rev. William F. Schmidt and Rev. Jesse P. Pfueger, missionaries of the Lutheran

joint synod of Ohio, who left Columbus last December for Puttur, India, have arrived at Ceylon and have been refused admittance to their mission field. They are now at Colombo awaiting further instructions. The grounds for refusal are not known here. An appeal will be made to Washington.

IT'S TRUE, THEN

(By American Press)

Rome, Feb. 28.—The evacuation of Durazzo has been officially confirmed. The Austrians hotly attacked the retreating Italian brigade, which embarked under the greatest difficulties owing to the heavy sea. The embarkation was protected by the long range fire of the Italian fleet, which inflicted heavy losses on the Austrians.

A military train bound for Florence to Rome was wrecked as it was entering the station at Cartona, 100 miles northwest of Rome. Twelve were killed and many were wounded. A number of the wounded are still pinned under an overturned car.

ROUMANIA TO KEEP OUT

(By American Press)

London, Feb. 28.—The chances of Roumania engaging in the European war on either side exist no longer, according to leaders of the responsible Roumanian parties. Roumania will remain neutral, and, according to statements made and to recent developments, will observe a neutrality which will give neither side just cause to employ military measures against her.

ASSAULT CAUSES DEATH

(By American Press)

Cincinnati, Feb. 28.—Rev. Thomas C. Carter, D. D., of Chattanooga, Tenn., bishop in the United Brethren church, died here. While walking along the street one night shortly after his arrival here eight days ago, he was attacked by highwaymen, knocked down and robbed, and, according to physicians, died from erysipelas, caused from bruises sustained at that time.

SEIZURE JUSTIFIED

(By American Press)

London, Feb. 28.—Seizure by Portugal of German vessels interned in the ports of that country was dictated by the necessities of the economic situation, and in order to avoid acts of sabotage, for which it was known preparations had been made, according to a statement in the Portuguese chamber of deputies by the premier.

The Washington Herald

Has Been Selected as One of

"Newspaperdom's Winning Dailies"

(The Only Washington Newspaper So Honored)

We feel sure that Washington advertisers will be interested in knowing that the "Herald" has been selected as one of Newspaperdom's "Winning Dailies"—and that the selection was made after studying the features which we believe entitled it to this distinction. Newspaperdom in its issue of February 10th said:

"The only newspaper in the Washington section of Ohio to be granted Newspaperdom's 'Winning Daily' emblem was the 'Herald.' Newspaperdom found that the 'Herald' is supreme in local and foreign advertising; that its circulation is much larger than that of any other daily in its field; that it is the only newspaper given a definite circulation rating by the 'A. N. A.'; that it is a substantial newspaper, furnishing the people a complete news service; that local advertisers endorse it unanimously as a result-producer; that it gets a higher rate for its space; that it carries a large volume of foreign advertising, and that its advertising pages make up the 'meeting place' of advertiser and reader."

Newspaperdom congratulates the management of the "Washington Herald" upon the fact that the "Herald" is justly entitled to the honor we have given it—of being one of Newspaperdom's "Winning Dailies." Less than 200 newspapers in the United States have been given this classification, according to the acid test applied before making our final decision.

Duchess of Marlborough's Activity Wins Favor In London.

ACTIVE IN WAR CHARITY.

"Surely Most Charitable of Her Rank In History," Is Verdict of Londoners on Duchess Who Was Consuelo Vanderbilt of New York—Interested In Protecting Babies.

London.—"Surely the most charitable duchess in history" is the way Londoners speak of the Duchess of Marlborough, who was Miss Consuelo Vanderbilt of New York. Scarcely a day passes that her home, Sunderland House, is not thrown open for some meeting connected with a war charity, and upon the occasions when the duchess is free from the duty of receiving in her home she appears elsewhere for the same object of meeting the needs of the poor and the helpless.

The duchess has been known as one of the tallest women at court, and her elder son, the Marquis of Blandford, is resembling her in this respect. At eighteen he is over six feet tall, a handsome, intelligent young man, who has been popular and studious at Eton. It is thought that he will enter the army soon.

His younger brother, Lord Ivor Charles Spencer Churchill, is a year younger and still somewhat delicate in health. Both of the sons have some times accompanied the duchess on her rounds of charity. It is a notable commentary on war conditions that the homes for prisoners' wives, generously supported by the duchess, have been closed because there are no women who need them.

The protection of the babies by the health authorities is considered her special philanthropic interest, and she has frequently spoken in public as well as writing to the newspapers to advocate the recognition of the Woman's Municipal party in filling vacancies on the metropolitan borough councils in order to secure the appointment of trained women to take charge of the health of the babies. Entertainments for the purpose of bringing before the public the needs of the children of the poor have often enjoyed the advantage of appealing to fashionable purses at her house.

cent notable event at Sunderland House, followed a few days later by a lecture by Mr. John Fortescue on "Heroes and Heroines of War."

In the interval the duchess was one of the prominent figures at the Christmas in wartime bazaar, held at Albert hall for the benefit of the professional classes and which was opened by Princess Alexandra of Teck. Ladies in Serbian and Russian costumes presided at the booths and were generously patronized by a big crowd, the success of the bazaar being assured in advance by the co-operation of the Duchess of Norfolk, the Duchess of Marlborough, the Duchess of Sutherland, Mme. Sze, the diminutive and charming wife of the Chinese ambassador, and by the lord mayor of London and his official family.

A Nickname For Barrett.

Lawrence Barrett, the tragedian, was subject to dyspepsia, and when he was suffering from that disorder he was cold and distant toward his company. One irreverent fellow always refused, however, to be suppressed. He said one day: "Just look at Cassius. He looks as solemn and righteous as if he'd swallowed the sword of justice. Let's call him the Scabbard." And the Scabbard he was—out of his hearing—for the rest of that season.

BECOMES BRIDE AFTER PHONE INTRODUCTION

Theater Party Culminates In Bachelor Girl's Marriage.

Boston.—Whatever may be the status of the telephone introduction in books of etiquette—formal, informal or distinctly bohemian—it has led to at least one recent betrothal and marriage in high social circles. Recently Alfred Borden, son of Mr. and Mrs. Spencer Borden of Fall River, was content with his bachelorhood.

That was before he had heard over the wire the sweet voice of Miss Susan B. Ellis of Surrey, England. He came to hear it in this way: One night he had "called up" from his father's cotton mills his friend, Mrs. Humphreys, and asked her to go with him to a theater. Mrs. Humphreys had a headache, or a previous engagement, or something of equal importance, and couldn't go.

It was a pity, though, to leave Mr. Borden a prey to the ennui of a lonely bachelor evening, and then the seats too! Mrs. Humphreys would do her best to fix it.

Not many moments later Mr. Borden was being introduced through the receiver to Mrs. Humphreys' sister, Miss Ellis, whom Mr. Borden had, strangely enough, never met, in spite of her success as "the bachelor girl" of Southampton, N. Y., last summer.

To make a long story short, Miss Ellis and Mr. Borden went to the theater, taking Cupid along as a supercargo in the taxi. The little fellow did the work well. Only a few weeks later their engagement was announced, and the couple were married in the chapel of St. George's church, stuyvesant square, New York.

The bride's father was present, having come over from England for the ceremony. After their wedding trip Mr. and Mrs. Borden will live at Short Hills, N. J.

PLUMBERS MUSTN'T RIDE.

Union Forbids Them to Go on Bicycles For Short Tasks.

Elkhart, Ind.—"We walk" has been the slogan of Elkhart journeyman plumbers since the passing of a rule by the union forbidding the use of bicycle or motorcycle in going to and from "short jobs."

The penalty is a \$5 fine. Men are permitted under the rule to ride to work for all day tasks and to use wheels at the noon lunch hour, but they must not make intervening trips

on wheels. They may be passengers at any time in vehicles provided by their regular employers.

The rule was the result of a boast at a union meeting of one of the men that he had completed an unusually large number of "short jobs" during that particular day because he used a bicycle.

Mother Left \$50,000 to Fireman Four Years Ago, but He Wasn't Curious. Philadelphia.—John T. Lammont, for more than twenty years a member of the Philadelphia fire department, learned for the first time he had inherited a fortune from his mother, who died four years ago here.

The exact amount has not been definitely ascertained, but is estimated at about \$50,000. Most of it is in bonds, deeds, mortgages and bank deposits, besides a large amount of cash in a safe deposit box in the vaults of the Fidelity Trust company.

"John never was curious," said several of his brother firemen afterward. "It is likely that when his mother died he just moved into her home and never bothered about going through her personal effects."

Before 1889 the department of agriculture was simply a bureau. Before the Fiftieth congress adjourned it passed a bill making the bureau a department and the commissioner of agriculture a secretary and a member of the cabinet.

THE GIRL AND THE GAME

A Story of Mountain Railroad Life

by FRANK H. SPEARMAN

COPYRIGHT 1915 BY FRANK H. SPEARMAN

Novelized From the Moving Picture Play of the Same Name Produced by the Signal Film Corporation.

(Continued from Yesterday's Herald)

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad, by George Storm, a newsboy. Grown to young womanhood Helen makes a spectacular double rescue of Storm, now a freight fireman, and of her father and his friends, Amos Rhinelander, financier, and Robert Seagrue, promoter, from a threatened collision between a passenger train and a runaway freight. Safebreakers employed by Seagrue and Capelle, his lawyer, interrupted by Helen while stealing General Holmes' survey plans of the cut-off line for the Tidewater. Seagrue and Helen chase the murderers on a light engine and capture them. Spike has hidden the plans and manages to inform Seagrue where they are cached. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. Seagrue helps Spike to break jail and uses him to set fire to a powder train hauled by Storm's engine. Helen saves Storm from a horrible death.

CHAPTER IV.

When Helen Holmes took the day key at Signal the little office had already passed from the quiet kind to the remorselessly active kind of those small way stations that drive innocent men mad. Two rival lines maintaining large construction camps and getting all their supplies through Signal station, were engaged in a race to build a mountain cut-off—and a considerable one. Despite all the help Lyons, the overworked agent, could give Helen, she found the tasks of her day about all that her strength would compass.

Nor could Helen, situated as she was, escape occasional office visits from Seagrue, whose activity as head of the opposition construction camp was unabated. Going over to the station one day to watch his men unload a shipment of material, he stepped into the office ostensibly to make inquiries—in reality to steal a few minutes with Helen Holmes, whom he found busy, but alone.

Seagrue spoke blandly: "I hear you're becoming quite a railroad expert." She made no effort to reply. "Getting really clever at the key, Lyons says," Helen, entering waybills, went on with her writing. "By the way," asked Seagrue, evenly, "any word this morning from our steam shovel?"

She looked toward the window—the local freight train had just pulled in. "It may be out there now, on No. 85." Seagrue seemed in no haste to investigate, and Helen had almost lost hope of any diversion in that direction, when the office door opened and George Storm walked in.

He was just out of his engine cab, and deliberate and composed as usually, but his eyes, lighting to greet Helen, cooled when he saw Seagrue. Storm nodded curtly toward him and was greeted in kind. Then the stalwart engine man turned his attention to Helen, and Seagrue was soon made to feel the pangs of being distinctly third in the situation and without an anesthetic.

"And the best of it all is," said Storm at length to Helen, "this is my last run on local freights. I am assigned tonight to the Limited."

Helen lifted her eyebrows in surprise: "Some run they're giving you!"

Seagrue took the chance to join sarcastically in: "Right in line for chief of motive power, eh, Storm?" Storm was not to be disturbed. He only regarded Seagrue calmly for a moment. Then he turned good-naturedly to thank Helen. While soldiering agreeably at this task, his fireman intruded on the scene long enough to remind him they were waiting for him to get out. Storm, with an expression of disgust at the interruption, nodded gruffly to the fireman, concluded his talk with Helen and walked out. Helen rose to go out on

MORE GROUND GAINED BY PLUNGING GERMANS

Take Two Positions In the Fighting at Verdun.

BIG BATTLE STILL RAGES

French Make Gallant Effort to Recover Fort Douaumont, but According to Berlin All Attacks Failed. Fifteen Thousand Prisoners Taken by the Germans—Operations in Other War Zones.

London, Feb. 28.—The great battle centering around Verdun, in which 500,000 men are engaged, is still being fought at some points with almost the same fury as featured it several days ago. At other points the intensity of the attacks has slackened somewhat.

Between the Douaumont heights and the plateau north of the village of Vaux, to the east, the Germans here concentrated their efforts in a strong attack. Fort Douaumont is still occupied by small German forces. The French are closing in on this position on three sides and announce that the German force is maintaining itself in the position only with difficulty.

The very unfavorable weather conditions, with a heavy fall of snow, may be one reason for the lessening of the force of the German attack; the dispatches from the front indicate

that heavy losses may have had an effect.

Five separate attacks have been made by the French on Fort Douaumont in an effort to retake the position, the German war office says. Each attack was made by fresh troops, but all five were repulsed with heavy losses to the French forces. The number of unwounded French prisoners taken in the seven days of the battle, the Berlin statement says, has reached 15,000.

Finding the position untenable because of the fire of both artilleries, the French have evacuated the Cote de Talou, to the west of Douaumont, and the position is now unoccupied, the French say, by either side.

In the official statement received from Berlin, the German war office announces that the Germans pressing ahead to the west of Douaumont have reached Nave, on the southern border of the wooded district northeast of Bras, taking Champneuville and the Cote de Talou on the way. To the east of Douaumont the Germans announce the storming of extended fortified works at Haraumont.

The Germans have begun an attack also on Verdun from the east, as well as from the north, throwing sufficient forces against the French line in the region of Morville and Blanzee, on the Woivre plain, to force the French advanced posts to fall back. The Germans followed up the attack in an effort to reach Hill 255. These attempts were checked.

There has been considerable activity along the Russian front around Riga, Friedrichstadt and Illeukst.

In the Caucasus region, despite the heavy snow, which at places is breast deep, the Russians are continuing vigorously their pursuit of the Turks.

LOWBROWS IN COLLEGE RAPPED

Too Many Roughnecks In Universities, Says Chancellor.

OTHER EDUCATORS AGREE.

Assertion of Professor David Starr Jordan of Leland Stanford University Causes Considerable Discussion University of Minnesota Members Indorse Sentiment.

Palo Alto, Cal.—The assertion of Chancellor David Starr Jordan in a recent address to the students of Leland Stanford university that there are too many "lowbrows" in college caused considerable discussion among the students.

The campus has been buzzing with that theme, and from the way many of the students talked it was apparent that they disagreed with Mr. Jordan, while others were on the affirmative side.

A "lowbrow," Mr. Jordan explained, was only one degree removed from a

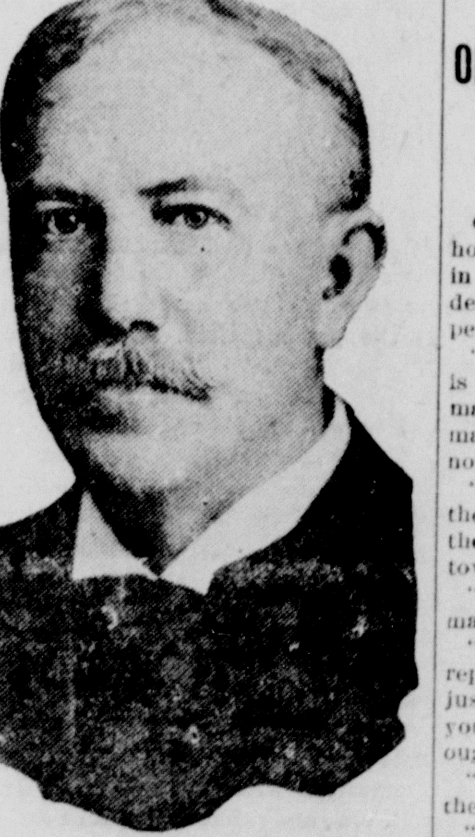

Photo by American Press Association. PROFESSOR DAVID STARR JORDAN.

"roughneck." The "lowbrow" was too practical, just as the "highbrow" was not practical enough.

Jordan's subject was "A Man," and during the course of his talk he declared it was a good thing to learn to be in the minority.

The salient points of his address were seriously studied by faculty members at the University of Minnesota, and a dispatch from Minneapolis said they heartily indorsed Mr. Jordan's statements and that he expressed the general opinion of the faculty members.

Some of them, however, took exception to the way the Californian put it; but, accepting his definition of "lowbrow" as one who is too practical and

a "highbrow" as one who is not practical enough, they agreed with the sentiment.

"Normal brows" are the ideal of the engineering college at the University of Minnesota, where the most practical students are believed to foregather, according to Dean Francis C. Shenehon. He said the students come to the college from high school with "lowbrow" tendencies and that the college tries to take the "lowbrowism" out of them before they are graduated.

"Lowbrows," according to Dean Shenehon, are more in danger of getting out of date than are the "highbrows." Practice changes and principles do not, he said, so the man who is too practical easily may be left behind.

"There's something to what he says," admitted J. M. Thomas, head of the rhetoric department, "but I don't like his English. Most of the students go directly into a professional school, or if they take a course in the academic college it is to train them for some special work."

The inference on the part of all the Minnesota professors was that entering students are distinctly in the "lowbrow" classification, and the work of the faculty is to elevate their forebears before they escape with diplomas.

FLIRTING INVITED BY FUR TOPPED SHOES

Oklahoma Woman Demands Ordinance Stopping It.

Oklahoma City, Okla.—Mayor Overholser closed all the gambling houses in Oklahoma City and drove the liquor dealers out of business. Now he is expected to inaugurate other reforms.

"Why don't you stop this flirting that is going on all the time?" asked a woman of sour visage who visited the mayor's office. The mayor said he did not know there had been any flirting.

"Well, there has and there is," said the woman. "It is going on now, all the time. I see it when I am downtown, and you could, too, if you looked."

"Who is doing it?" inquired the mayor.

"Men and women, boys and girls," replied the visitor, "and the girls are just as bad as the men. I can show you girls on the streets right now who ought to be arrested."

"In what way do they flirt?" asked the patient mayor.

"By looking sideways at the men and by wearing fur topped shoes and dresses halfway up to their knees," said the woman. "You've seen them, haven't you? And you know they're disgraceful, don't you?"

Mayor Overholser said there was no ordinance regulating women's attire to that extent.

"Then pass an ordinance," insisted the visitor. "Put a heavy fine on the girls who wear fur topped shoes and short dresses or else on the men who look at them."

The mayor sighed wearily. "If you don't," the woman continued, "this town will go to the devil. It's going there now, with its fur top shoes and flirting."

NEW GROUNDHOG YARN.

Did Not Re-enter Hole Because It Was Frozen to Death.

Norwich, Conn.—Byron P. Fox, an Litchfield farmer, appeared in Norwich recently with a story that may go to show why Mr. Groundhog failed so miserably as a weather prognosticator this year. According to Mr. Fox, who admitted that until recently his confidence had never been shaken in the groundhog prophecy, a fine specimen of the woodchuck was found frozen to death near Glasbrenner's livery and garage in Uncasville recently.

"It must have been layin' near the road there for over a week," said Mr. Fox. "Cose, it didn't see its shadow the day it came out, and I suppose the critter was too blained proud to crawl back afterward. Anyhow, it stayed out and was frozen. No wonder we've been freezin' weather."

Do Something for your Cold.

Do not let it wear you out and encourage sickness. Take Dr. King's New Discovery. You will get instant relief.

Most of us neglect coughs and colds. We brush suggestions aside with the remark "I'll be better soon," and oftentimes we do get better. However, when that cough or cold gets a hold, it usually means annoyance, interference with our work and often a spell of sickness follows. Isn't it better immediately to check that cold and ease the cough? Dr. King's New Discovery does it! Search as you will, you will not find a better remedy.

Dr. King's New Discovery is made of Pine Tar mixed with soothing balsams and laxatives. It's antiseptic and kills the germs, allays the cold-fever and soothes the irritated, inflamed throat. The very first dose gives you relief. You cough with less strain. And if you have a hacking or dry night cough, grateful relief follows and you soon drop into a restful and refreshing sleep. Get a bottle to-day and let Dr. King's New Discovery be your cold and cough doctor. At all druggists.

TUESDAY'S GAME OF BASKET BALL BRINGS STATEMENT

Mr. Earl Peterson, captain of the "Baptists" basketball team winners of the championship cup in the Sunday school league when asked Monday his opinion as to the contest Tuesday night at the "Y" gymnasium when his team will clash with a team picked by Rudolph Schlabach said.

The challenge which was issued Friday evening to Mr. Schlabach over my signature was promulgated by the managers of the Sunday School League without my knowledge. I knew nothing of the challenge until I read it in The Herald. Naturally I assumed responsibility and was willing to go ahead with the game. Of course we on the Baptist team realize that the games played in league season just closed were all hard fought contests and our margin of victory was a narrow one. The other teams are strong and had I been looking for certain victory Tuesday night it is not likely that the challenge would have been so sweeping. However, as the whole matter was "set up" on both Mr. Schlabach and myself we have accepted in good faith and will go through with it and so far as the Baptists are concerned we will give the "picked team" the best we have."

Mr. W. W. Hamilton, president of the board of managers, when seen regarding Mr. Peterson's statement verified it absolutely so far as the issuing of the challenge was concerned.

Mr. Schlabach has consented to allow the Baptists to choose one man to add to their team from some of the other teams of the league.

The choice will be announced just before the game begins and after the cup has been presented to the winners.

FIFTY-EIGHT HIT "SAWDUST TRAIL"

Previous records at the Sunnyside tabernacle were broken again Sunday night when 58 people hit the sawdust trail. Ten came out Saturday night and three Sunday afternoon, making a total of 71 in the three services, and a grand total of 501 in the 7 weeks since the beginning of the meetings.

Evangelist Willhite said that if 25 came forward last night he would continue the meetings, and it was announced last night that there would be meeting again Monday night, and the indications now are that the meetings will last all this week if the wonderful interest keeps up.

Prof. J. W. Troy, who has had charge of the music, made an interesting talk to Christians Sunday afternoon, Evangelist Willhite and Rev. Stone also talked. At the night meeting Rev. Dalbey asked the privilege of making a few remarks in behalf of a liberal thank offering for Evangelist Willhite. In all about \$120 was raised at the two meetings.

Evangelist Willhite made a great talk Sunday night on "What I Think of Washington C. H."

RECEIVES WORD OF BROTHER'S DEATH

Mr. Joseph Murphy received a telegram Monday morning announcing the death of his brother, Mr. Mills C. Murphy, at his home in Independence, Kansas.

About twenty years ago Mr. Murphy was employed at the Dahl-Millikan wholesale grocery house in this city.

His death will be learned with regret by former friends in this city.

FLAG PRESENTED WITH SERVICES

Representatives of the John M. Bell—W. R. C.—attended the services at St. Andrew's Episcopal church Sunday morning and presented the silk flag previously placed in the church.

In making the presentation, Mrs. F. G. Carpenter, Patriotic Instructor, spoke of the loyalty with which our city ministers champion every cause that stands for good citizenship, and are always found in the front ranks in all patriotic endeavor. All the patriotic orders appreciate the patriotic sentiment engendered in the local churches and Sunday schools and believe that our country's flag should form a part of their equipment for service.

In appreciation of Rev. Prosser's interest in the work of the patriotic orders they took pleasure in presenting the flag to St. Andrews.

Rev. Prosser's response was beautiful in sentiment and sincere in appreciation.

Mrs. Carpenter was accompanied by Mrs. Martin Hamm, president; Mrs. Sarah E. Sollars, Sr., vice, and Mrs. Valentine Hoppess, flag bearer.

VERITABLE SHOWER BY PARCEL POST

The parcel post carrier of this city is being kept busy delivering packages to one home in this city at the present time, and by Friday of this week he will have handled several hundred packages addressed to one woman.

A few days ago when parcel post packages began pouring in addressed to Mrs. D. H. Rowe, the carrier was mystified. When the number of parcels increased daily, his wonder increased, but Monday when a veritable avalanche of packages arrived and he made frequent deliveries at the Rowe home, he suddenly remembered that a "Parcel Post Sale" is to be held Friday night in connection with the supper at Grace church, and that all packages are forwarded to Mrs. Rowe.

BATTLE OF VERDUN IS RAGING FURIOUSLY

Paris Claims Heavy Reinforcements Have Reached the French Lines and Advance Is Checked.

Berlin Contends That Forces of the Crown Prince Continue to Make Substantial Gains.

(Associated Press Cable)

London, February 28. — The great battle of Verdun, now entering its second week, is continuing with unabated fury, with the German armies driving hard at the French defenses.

Paris asserts that with the pouring in of heavy reinforcements the German advance has been checked, but Berlin claims the continuation of the forward march on the French stronghold.

Along the Meuse to the north of Verdun the Germans have been unable to make as rapid progress as in the initial stages of the battle, and even on the Woevre front where the French at first fell back, they now appear to be offering effective resistance. The pressure here is particularly menacing to the fortress.

The French defensive operations at places are taking on the nature of a counter offensive, as in the attacks on Fort Douaumont, four miles northwest of Verdun.

The German accounts fail to agree with the French version of the fighting, Berlin having announced further advances for the Crown Prince's troops, including the taking of Hardaumont and the village of Champeuville, on the German right flank, while the French attacks on Fort Douaumont were repulsed.

The French themselves do not claim the recapture of this outlying defense of the main fortress, but declare that the Germans who had gained a foothold to the east and west of this position were being hard pressed, maintaining themselves with great difficulty.

The sinking of the Russian steamship Petshenga has been announced. Fifteen of those on board were saved.

Berlin, February 28. — Although further advances have been made by the Germans north of Verdun, no changes of great importance are revealed in the War Office statement issued this afternoon.

An offensive has been inaugurated by the Germans in the Champagne district, resulting in the capture of French positions for a distance of 1-1/2 miles.

It is said more than 1,000 men were made prisoners.

SCORES PERISH WHEN STEAMER MALOJA SUNK

(Associated Press Cable)
London, February 28. — Of the total of 411 passengers and crew of the steamship Maloja, which was sunk two and a half miles off Dover yesterday after striking a mine, only 260 are known to have been saved. The names of 64 passengers saved have been received at the steamship company's offices.

The British press is almost unanimous in assuming that the Maloja and other vessels sunk by mines during the week end were victims of a fresh sowing of German mines.

GERMANY'S FINAL NOTE PRESENTED TO LANSING WILL MAINTAIN PLEDGE

Insists That Instructions to Submarine Commanders Will Not Be Modified.

Extra Precautions Will Be Taken to Protect Unarmed Vessels.

Armed Liners Will Be Treated as Warships and Are Subject to Be Sunk Without Warning.

By Associated Press Dispatch.

Washington, February 28. — In a note presented to Secretary Lansing today by Count von Bernstorff, the German ambassador, Germany assures the United States that it has no intention of revoking the pledges given in the Lusitania case.

The note says Germany can conceive of no reason for changing or postponing the new instructions to her submarine commanders to treat as warships enemy merchant ships armed "defensively," and that special precautions have been taken to prevent ships that are not armed from being attacked.

The note at the outset reiterates the previous pledges which were given on September 1 and October 5 last year for the safety of unresisting liners, and then goes on to say the German government does not believe those assurances have been modified by the new memorandum.

The note then sets forth that the German government did not issue its new instructions to submarine commanders until after it had come into possession of confidential instructions by the British government to the commanders of British merchantmen.

It is denied that armed British merchant ships of any description are peaceful traders, and it is declared that the armament on board all of them is to be used especially for purposes of attack.

It declares that the German submarine commanders have been so instructed that they will not destroy a merchant ship on a question of armament unless it is known positively that such armament exists.

The declaration that previous pledges will not be revoked is also formally given.

It was understood that the note would be brought to the attention of President Wilson before night, and that nothing definite regarding it would be decided until after it had been submitted to the Cabinet tomorrow.

PLEAD GUILTY TO MURDER CHARGE

By Associated Press Dispatch.

Pittsburg, February 28. — William McClure and Joseph White, who allege they were paid \$50 by Aaron Fell to attack his mother-in-law, Mrs. Caroline Viehmier, pleaded guilty to the woman's murder today.

Fell is to be tried for complicity in the crime.

He is said to have instigated the attack in order that he might obtain possession of a note for \$4,000 which the woman held against him.

Washington, February 28. — Members of the federal grand jury which indicted Congressman Frank Buchanan and other members of Labor's National Peace Council testified today before the Congressional committee which is investigating impeachment charges against United States District Attorney Marshall of New York.

Mr. Marshall's impeachment for improper conduct was demanded by Congressman Buchanan shortly before his indictment.

PIGEONS CARRY HOG CHOLERA

Pigeons are responsible for about 20 per cent of the spread of hog cholera according to the authorities who are dealing with its eradication. The farmer who owns or harbors pigeons should either confine them at home or dispose of them. Pigeons fly from farm to farm in search of food which they generally find in the feed yards.

In flying long distances and visiting many yards they easily get the germs on their feet and infect a neighborhood before people realize that cholera is in their herds. In 1915 the loss from hog cholera in the United States was estimated at \$750,000,000, and if one-fifth of this can be attributed to pigeons, they will have to go. — Agriculture Bulletin.

BIG LINER LOST IN THE CHANNEL

Struck Floating Mine Off the
City of Dover.

150 PERSONS LOSE LIVES

British Steamer Maloja, Carrying More Than 400 People, Blows Up and Sinks Within Thirty Minutes—Another British Vessel, Engaged in Rescue Work, Hits Mine and Quickly Founders.

London, Feb. 28.—Struck by a floating mine, the British passenger steamer Maloja of the Peninsular and Oriental line, sank within thirty minutes between Dover and Folkestone. The afterpart of the vessel was blown up. The accident occurred Sunday forenoon.

There were 119 passengers and a crew of about 300 on board.

At a late hour it was estimated that 147 persons were drowned or killed as a result of the accident, 117 of whom were seamen.

No Americans are believed to have been aboard. The mine which caused the Maloja's destruction is believed to have been one of the large nets spread by the British navy for the protection of England's coast against German naval raiders.

While helping in the rescue work the British steamship Empress of Fort William, of 1,383 tons gross, herself struck a mine within half a mile of the sinking Maloja and immediately began to settle her stern and forepart. She kept above the water long enough to enable the crew to take to the boats, then suddenly exploded and disappeared in a cloud of steam.

A third victim of a mine was the Dutch mail boat Mecklenburg. Passengers and crew were saved by two Dutch steamships. In consequence of the Mecklenburg's sinking the service between Holland and England was stopped.

The Maloja, one of the most stately liners in the British passenger service, was bound from London to Bombay. She was the sister ship of the Persia, which was sunk—from a thus far unknown cause—off the island of Crete on Dec. 30, with the loss of 336 persons out of 450 on board. Among those lost with the Persia was the American consul to Aden, Robert N. McNeely.

A large number of mail sacks were lost with the Maloja. The rescue of the majority of the passengers is ascribed by the Peninsular and Oriental line to the fact that only Saturday evening the Maloja's captain had instructed the passengers in the use of life belts. The behavior of both passengers and crew is characterized in an official statement of the line as "splendid."

Hundreds Rescued.

The explosion which followed the Maloja's collision with the mine was the sign for innumerable large and small craft to hurry to her assistance. Within a few minutes the sinking vessel was surrounded by a swarm of steamships, trawlers, tugs, lighters, boats, and even small warships.

There was a stormy sea, however, and the rescue work was made under difficult circumstances. These were rendered still worse by the sudden explosion on the Empress of Fort William, which divided the rescue vessels and added greatly to the dramatic element of the situation. A remarkable feature is the assertion that there was no panic. The simultaneous sinking of the two vessels, both destroyed by a mine, with hundreds of men and women in the water struggling for their lives, offered one of the most spectacular scenes ever witnessed off Dover.

The Peninsular and Oriental line statement after telling of the cause, time and scene of the disaster, said: "The after part of the ship was blown up. There was a high sea and the captain seeing that extensive damage

had been done tried to beach the liner, but was unsuccessful in this, the engine room being full of water. The vessel sank in about half an hour. The survivors were landed at Dover.

The Maloja sank about two miles off shore. The explosion was heard and seen at Dover and tugs and motor boats raced promptly to her aid. Patrol boats also responded speedily to the Maloja's distress calls.

QUITE A FEW

(By American Press)

Chicago, Feb. 28.—Calling upon all Typhened citizens to ignore the campaign pretensions of either the "oliant Roosevelt or his henchman, Root," the Teutonic Sons of America in a meeting here passed resolutions of rebuke to President Wilson, accusing him of hypocrisy in his attitude toward the Mexican and German situations. The resolutions say in part: "That the Teutonic element of America be advised of President Wilson's acrobatic administration performance regarding Mexico and the Lusitania, with its forced conclusion that he has proved his utter unfitness to be longer entrusted with the maintenance of American honesty, honor and integrity."

New York, Feb. 28.—Present indications point to a cool reception on the part of the teachers of New York city of the proposition to organize them into a labor union affiliated with the American Federation of Labor. Only one of the fifty odd associations of teachers and principals has taken up the proposal at all, the Teachers' league, and most of the other associations connected with the public schools system are too deeply interested in pending and proposed legislation affecting their welfare to precipitate a discussion of a union among them similar to a labor union. Samuel Gompers, president of the American Federation of Labor, is expected here to confer with the league and with any other teachers who may desire information about the project.

President Wilson Makes Serious
Talk at Gridiron Dinner.

Washington, Feb. 28.—President Wilson told members of the Gridiron club and its guests at the annual dinner of the organization that violation of the essential traditions of America would be the only justification for the United States entering the European war.

"America ought to keep out of this war," said the president, "she ought to keep out of this war at the sacrifice of everything except this single thing upon which her character and history are founded, her sense of humanity and justice. If she sacrifices that she has ceased to be America; she has ceased to entertain and to love the traditions which have made us proud to be Americans, and when we go about seeking safety at the expense of humanity, then I for one will believe that I have been mistaken in what I have conceived to be the spirit of American history."

President Wilson evidently had the revolt in congress against his foreign policy in mind when he made this observation: "I would a great deal rather know what they are talking about around quiet firesides all over this country than what they are talking about in the cloakrooms of congress."

President Wilson's speech was regarded as an answer to criticisms by senators and representatives that his present negotiations with Germany might plunge the country into war. Mr. Wilson was frequently cheered in the course of his address and was given an ovation as he took his seat, being obliged to arise and bow his acknowledgements.

In closing the president made this statement: "Valor is self-respecting. Valor is circumspect. Valor strikes only when it is right to strike. Valor withholds itself from all small complications and entanglements and waits for the great opportunity when the sword will flash as if it carried the light of heaven upon its blade."

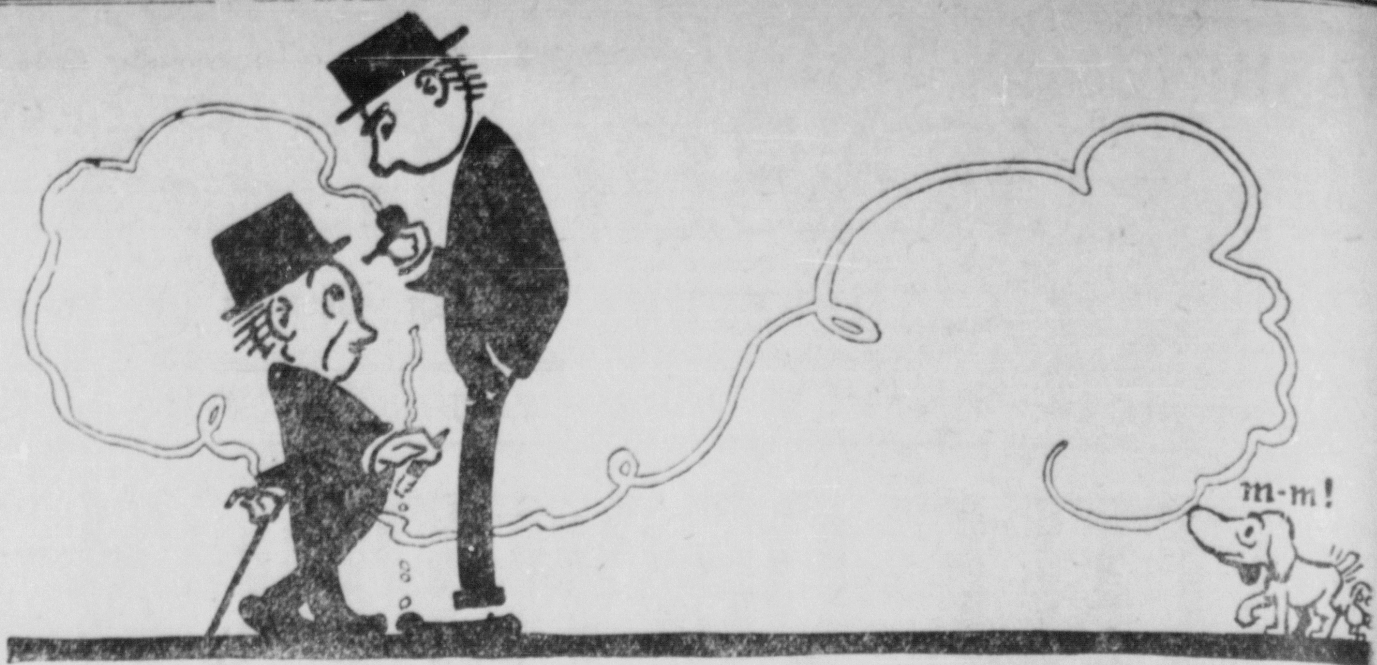

ANOTHER BOOST

(By American Press)

New York, Feb. 28.—The adoption by the United States of a military system similar to that of Switzerland and military training of college men were advocated by President John Grier Hibben of Princeton university, speaking here. Dr. Hibben said he was a pacifist, but favored preparedness. "If we don't spend money for preparedness now," he declared, "we shall pay in blood and lives some time."

Every college man with a three months' vacation in summer, he said, should devote five weeks of training for the defense of the country, as a concrete manifestation of patriotism. "A manifestation," he added, "that would be more patriotic than any word of songs or banner waving."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The combination of the best smoking-tobacco leaf in the world and the best method ever discovered for refining and mellowing tobacco puts Tuxedo in a class by itself.

Kentucky's ripest, mildest Burley leaf, when treated by the original "Tuxedo Process" loses every trace of bite—develops a wonderfully pleasing fragrance and flavor that are not found in any other tobacco.

No other manufacturer knows the "Tuxedo Process"; that's why no imitator ever equals Tuxedo!

CONGRESS QUIETS DOWN TO WORK

Leaders In Each Branch Hold
Revolt In Check.

Washington, Feb. 28.—In both houses of congress administration leaders continue to hold in control the threatened revolt against the president on the armed ship issue, and no further outburst is expected unless there should be a development apparently leading toward war.

Conservation champions in the senate plan to throw their combined strength against the Shields bill to provide for leasing of water power sites on navigable waters to private interests. For two weeks they have been fighting the bill in a more or less haphazard manner, but they propose this week to centralize their efforts in the hope of amending the measure to the satisfaction of the conservation forces.

Senator Husting of Wisconsin, who has had co-operation of other senators, will propose a substitute to the Shields bill with regulatory features, which he declares will safeguard the public interest and prevent monopolization of water power facilities.

As soon as an opportunity is afforded Senator Robinson of Arkansas will make an effort to have passed his resolution providing for an inquiry into the aviation service of the army against which he has filed serious charges of inefficiency.

Progress is being made on general appropriation bills, but leaders in both houses are again complaining over delay in legislative accomplishments and another speeding up order has been sent out all along the line.

Consideration of the postoffice appropriation bill will be continued in the house and its disposition will see the legislative appropriation bill taken up. The immigration bill debate has been postponed and it may not be reached before next week.

Cutting.

A Scotch lawyer was well reprieved when, seated by a lady fully aware of her own plain looks, having bowed to his hostess in giving the toast, "Honored Men and Bonnie Lassies," she rejoined, raising her own glass, "We may both drink that toast, since it refers to neither of us."

MONSTROUS

(By American Press)

London, Feb. 28.—Captain Gargill of the Liverpool steamship Belle of France, who recently returned home, describes how the ship was torpedoed without warning off Alexandria. He says twenty-four members of the crew swam to the submarine and clambered to the undersea craft's deck. The German crew, however, according to Captain Gargill, went below and closed the conning tower hatches, leaving Captain Gargill's men outside. All but five of the latter perished and the remainder were picked up by boats from the Belle of France.

Poetry For Today

LEANING AND LIFTING.
There are two kinds of people on earth today,
Just two kinds of people, no more I say,
Not the saint and the sinner, for 'tis well understood
The good are half bad and the bad are half good;
Not the rich and the poor, for to count a man's wealth
You must first know the state of his conscience and health;
Not the humble and proud, for in Life's little span
Who puts on vain airs is not counted a man;
Not the happy and sad, for the swift flying years
Bring each man his laughter and each man his tears.
No! the two kinds of people on earth I mean
Are the people that lift and the people who lean.
Wherever you go you will find the world's masses
Are always divided in just these two classes;
And oddly enough you will find, too, I ween
There is only one lifter to twenty who lean.
In which class are you? Are you easing the load
Of over-taxed lifters who toll down the road?
Or are you a leaner who lets others bear
Your portion of labor and worry and care?
—Ella Wheeler Wilcox.

TREATS SON FOR RABIES.

Paterson Physician Rushed to Parent in Chicago For Aid.

Paterson, N. J.—Believing he was developing symptoms of hydrophobia, Dr. Francois was of 75 East Eighteenth street, Paterson, widely known for his treatment of hydrophobia cases, left for Chicago, where he is being treated for prevention of the dreaded disease by his father, Dr. Juan Was, an eminent physician and surgeon of that city.

Whether Dr. Was became infected while attending patients or through a laceration of his right leg by a dog which bit him while he was on a call at Fairlawn several weeks ago is a matter of conjecture. The dog attacked his sister, Miss Huberdyn Was, who accompanied him. The physician saved her, but was himself bitten.

RILEY WALKS IN AT HIS OWN FUNERAL

Body of Accident Victim Said to Be His.

Cincinnati.—Edward Riley of Detroit walked into the home of his sister, Mrs. Charles Becker, in East Fifth street, the other day and put a stop to his own funeral.

His weeping relatives at first stared. Then followed embraces, and the body of a man killed in an automobile accident in Detroit and sent here as that of Riley was removed to an undertaker's parlors.

Riley declares that the stranger whose burial as his came so near happening was Fred Ellis, a derelict, to whom he gave an old coat not long ago. At Detroit, according to the police, Mrs. Becker and her husband both recently identified the remains of the man, and on this identification a check for \$1,500 from an insurance company was presented at the Becker home here in payment of their loss. However, the real Mr. Riley refused to let his sister cash the check.

The Wayne county coroner at Detroit will be asked to direct the disposition of the body that was turned aside.

The presence of the two postcards from Mrs. Becker to Riley found in the coat, it is said, explained Riley's story.

HAS \$5 PATCH ON HIS SHOE.

Long Island Cobbler Fined For Working on Sunday.

New York.—"You have no more right to mend your own shoes on Sunday than I have to build my own house on the Sabbath," said Magistrate Conway in the Long Island City court, "and I shall have to fine you \$10."

Michael Morano, a shoemaker of 395 Hopkins avenue, Astoria, was the prisoner. A policeman found Morano working in his shop on the Sabbath and arrested him. When Morano was brought into court he admitted that he was repairing shoes, but said they were his own.

Morano said he did not have \$10, and his family was unable to raise the money. It looked as though the shoemaker would have to go to jail, but later the magistrate reduced the fine to \$5, which the prisoner was able to pay.

FARMERS' LOT MADE HARDER.

Mail by Motor Comes in Night Mostly. Curiosity Can't Wait.

Washington. — Motorcars on rural mail routes do not make a bit with farmers, according to Representative Gray of Indiana, who made a vigorous kick against the innovation in the house.

"The barking of the farm dog in the middle of the night instead of the crowing of the cock is now the signal that the postman has arrived," Mr. Gray said indignantly. "and the poor farmer is forced to go out with a lantern to see what has happened to his mail box."

Bride Finds Wealth in Attic.

Point Pleasant, Va.—While rummaging in the attic of her home the day following her recent marriage at Evans, near here, Mrs. John Board found \$1,500 in gold and many thousands in currency. The paper was folded together so the bills could not be separated. They were sent to the United States treasury department to be counted. The board was concealed under the floor of the attic.

The Unicorn.

Chinese annals of great antiquity contain numerous detailed accounts of the supposedly fabulous unicorn, in which the descriptions are identical with those handed down from the earliest times in the mythology of occidental countries. From this it is inferred that at some time in the remote past there actually did exist a single horned equine or cervine animal of some sort.

HOW JIM'S CLAIM WAS JUMPED

A Strange Episode of the Days of Forty-nine.

In the days when the forty-niners in California were hunting for the big mines that afterward became bonanzas a man appeared in Billion gulch and located a claim. He was a powerful fellow and a bully, and it was not long before his neighbors were afraid of him. He didn't trouble them to remember his name, and they gradually got used to calling him "Fighting Jim."

One day Jim told his neighbors he was going to San Francisco. He intended leaving his cabin unlocked and his claim unprotected "just for the fun," he said, "of seein' some galoot jumper, when I get back, bunkin' in the one or workin' the other." Then he added, "Ye'll see somepin happen." With this he departed.

There was none of the people of Billion gulch so rash as to interfere with either of Jim's properties. Several strangers came along, took a look at the claim, were duly warned and departed.

One day a young fellow came to the gulch, asked a great many questions about the prospects of gold, claims to be had and claims not to be had. Incidentally Jim's claim was mentioned, with the usual warning. That night a light was observed in Jim's cabin, and the next morning the stranger was at work in Jim's cabin. A self constituted committee of the most prominent citizens proceeded to the hole that had been dug and kindly informed the youngster that he was not only wasting his time, but that Jim, when he returned, would necessitate their burying the jumper at the public expense. The fellow put his hand in his pocket and, taking out a bag of gold dust, remarked:

"I'm no sponge to bring unnecessary expense on my neighbors. Take that for security." With that he resumed his pick, and the committee departed to spread the news through the gulch that there was a lunatic working Jim's claim, and the gulch was sure on Jim's return to be disgraced by its first murder.

In a couple of weeks Jim returned. He gathered all he met into the principal saloon of the town to drink to his return, and several citizens took advantage of the fact to break the news of the jumping of his claim and his claim and to strive to induce Jim to bring no disgrace on the hitherto peaceful community. Their efforts were in vain. Jim had scarcely heard of the outrage when, blithely his revolver forward, he left the saloon in hot haste to wreak vengeance on the stranger. The crowd followed with bated breath. On nearing the mine the peaceful sound of the pick was heard. Jim, disdaining to take advantage of an unwarned enemy, strode up empty handed to the side of the hole. The jumper went on picking the earth, and Jim growled:

"Hello, you, there!"

The youngster turned his oval face, delicate except the mouth, which was firm as adamant, and replied:

"Hello, Jim!"

Jim stood paralyzed, and the jumper continued:

"I've understood from these people that you're goin' to make hash o' me. If you do, y're a good deal changed from what y' were last time I saw y'. I reckon this western air must ha' put a lot o' starch into y'."

Still Jim stood mute, and those who had come to see him "chaw up" the stranger wondered.

"I want y' to understand," the jumper continued, "that this claim belongs to me. While y've been foolin' yer time away I've been busy a-workin' it. Now git down here and go to work. Gentlemen"—addressing the crowd—"the show's over. There isn't a-goin' to be any funeral today nor tomorrow nor none at all. So y' might as well go about yer business."

The party walked slowly away, leaving Jim and the jumper together. From that day Jim was a changed man. He talked no more of fighting, kept away from the saloon, devoting his time to the working of the claim, which had apparently passed into the control of the stranger. Then suddenly the jumper disappeared. As soon as he had gone Jim stopped work. His old associates expected that he would reveal the mystery, but he maintained absolute silence. Weeks passed, then months.

One day a letter came to Jim bearing a New York postmark. From the moment of its reception Jim was again changed. This time it was a different change; he was hilarious. He gathered the people of the gulch into the saloon and treated all round. Then he went to his cabin and to bed. The next morning the cabin was empty. Jim had disappeared.

"It's as plain as the nose on yer face," said the chief citizen. "Jim was wanted for murder. It wouldn't do no good for him to kill the jumper, since he'd been located; so he bribed him to go back and clear the coast for him to take to other cover. That letter told him that the p'lice had been fooled."

One day a party of professional miners appeared in the gulch and opened up Jim's claim, which proved to be one of the biggest mines in the country.

"Who sold you the mine?" queried the gulchers.

"James Flint and Jemima Flint, his wife. Flint came out and prospected. Then his wife came out, and it was she who went east and negotiated the sale to the company. They got a million for it."

Making War "Terrible."

The opinion is general among statesmen and students that the conflict in Europe could be brought to an end very speedily if the acquisition of territory, or the payment of indemnity was the chief aim of the warring nations. It seems generally agreed that Germany has offered to restore Belgium to the Belgians and that the Teutons would not be averse to paying full indemnity for the damage done to that nation.

Russia could attain the ambitions of centuries—the acquisition of Constantinople and a port in the warm waters. In return for the exactions Germany would make of the slav, restoring Galicia and Poland, compensation in Asia Minor and Turkey would be offered. Great Britain could keep the conquered German colonies, France attain a measure of revenge by the acquisition of a portion of Alsace and so on through the whole line according to the experts. But Germany, generally believed now, willing to accept honorable peace and restore the former balances, on slightly changed geographical lines. even though the victor in the land fighting thus far, receives no encouragement in her hope for peace.

What then? Simply this. England and France have been impressed with Germany's efforts to make war "terrible."

The Zeppelin raids, the under sea warfare, the violation of Belgium and the general disregard of all rules of civilized warfare by Germany have driven France and England to the belief that there can be no enduring peace in Europe until Germany is utterly crushed.

Peace with the German empire intact, they believe, would be only temporary and the menace an ever present one.

With England and France grimly determined to fight until Germany's military power is utterly crushed and with the central powers far from exhaustion, the prospects for peace in Europe are not encouraging.

The intense hatred and blind fury which marked the earlier stages of the war have given place to conscientious conviction that the war must be fought out to the end.

The allies have not yet reached, apparently, that stage where they are unmindful of the cost in men or money.

Germany began the war prepared and filled with the war spirit which counts not the cost of success. While the allies are yet appreciative of the ruthless slaughter of battle and are aiming to save both men and ammunition, Germany and Austria plunge through with their offensive movements with a force as yet irresistible.

Germany has made war "terrible" and so terrible that it may cost her that peace with honor which should come as a reward for the valor of her armies.

SUIT OVER PAVING WILL PROBABLY BE DISMISSED

Court Expected to Sustain Demurrer Filed By Defendants and Suit Over Letting of Contract on South Main, Brought By Bolin & Wilt, Will Be Dismissed.

Judge Carpenter, within the next day or two, will hand down a decision in the case of Benjamin F. Bolin and Jas. S. Wilt, contractors, against the City of Washington, The Board of Control, Ex-Mayor Coffey, Ex-Safety Director Gerstner and Contractors Heffner & Son, and it is understood this decision will sustain the demurrer, dismissing the petition at the cost of the plaintiffs.

The Court, it is understood, will hold that the plaintiffs are not vested with right to warrant action for

an injunction to prevent Contractors Heffner & Son doing the work under contract.

The suit, it will be recalled, was brought by Contractors Bolin and Wilt who underbid Heffner & Son on the South Main street paving job, by approximately \$2200, the plaintiffs holding that inasmuch as they were lowest bidders on the work, they were entitled to the contract.

The plaintiffs asked that the action of the Board of Control, in awarding the contract, be set aside, and that the contract be awarded to them at their bid.

An injunction to prevent the firm of Heffner & Son entering upon the work was asked.

The defendants filed a demurrer to the petition, and the demurrer argued before Judge Carpenter Saturday morning.

Whether the plaintiffs will carry the case up, is not known.

COURT DEFINES THE WORD "HOME"

Man Who Had Occupied House in This City for 15 Years, But Always Voted in Wayne Township, Where He Owned Farm, Held to Be Resident Here.

A man's home is his actual and habitual place of abode, his establishment, the place to which he returns when absent, according to the decision of the Court of Appeals in the case of James R. Mills, against R. S. Quinn, as treasurer of Fayette county.

The plaintiff according to a review of the case owned a large farm in Wayne township, but more than 15 years ago leased the farm and moved to this city, but claimed that his home was in Wayne township, where he listed his property, moneys and credits, except the household equipment in this city.

In 1911 the Board of Review decided that the plaintiff resided in the third ward in this city, and ordered moneys and credits in the sum of \$9,505.00 placed upon the tax duplicate in this city. The auditor complied, whereupon the plaintiff brought action to prevent collection of taxes on the above amount for the rate of taxation in the city.

The plaintiff brought out that he had always voted in Wayne township, made trips to and from the farm, sometimes staying over night or, infrequently, remaining more than one night, that he had always

intended returning to his farm property some day.

The court held that inasmuch as the house occupied by Mr. Mills in this city was the place to which he always returned, and that he had spent most of his time in this city since moving here, that it was his home, and ordered the case dismissed at his costs.

The plaintiff was represented by John Logan and the defendant by Prosecutor Maddox.

FALLS DOWN STEPS IS BADLY INJURED

Saturday afternoon Mrs. Belle Smith, of West Market street, sustained serious injuries by a fall down the steps at her home, fracturing both bones of one arm, several ribs and sustaining most painful cuts and bruises about the face.

Mrs. Smith was taken at once to the Hodson Hospital and an X-Ray examination was made.

She is resting as comfortably as possible today and will remain at the hospital for the present.

SCHOOL BOARD CASE DECISION

Appellate Court Confirms Decision of Lower Court and Holds Franklin Co. Court Action Void—Funds Held By School Board Are Distributed.

In the decision of the Court of appeals in the case of The Board of Education of the City of Washington against Chas. E. Bedwell, as receiver of Henry Karg, et al., the court sustained the decision of the lower court, making disbursement to the various lien holders.

The action was brought by the Board of Education that certain funds be properly distributed after the High School building in this city was completed, a receiver for Contractor Karg having been named before the local structure was completed, and when the receiver completed the work, and payment was to be made by the Board of Education, the Board wished to pay the money to the parties who should receive it, and asked the court to make distribution.

The Court of Appeals held that the application of counsel for Bedwell for a receiver in Franklin county, was made upon petition which did not contain allegations warranting appointment of a receiver, and the action of the court in making the appointment was void.

The court further found that the bank in which the funds have been located since the action started, is chargeable with all of the interest received on such funds since the petition was filed, providing the money was loaned, and if not loaned, should be charged with interest commencing 30 days after filing of the petition.

A number of local attorneys were interested in the action, Gregg, Patton & Gregg representing the Board of Education; Logan and Sanderson representing D. W. Schneider; one of the lien holders; Rankin & Rankin representing the H. G. Coffman & Co., lien holder; Post & Reid, representing the Pittsburgh Glass Co. and Mr. Baker; Chas. S. Druggan, of the Structural Steel Co.

B & O. MAY CONDEMN TO OBTAIN ROADWAY

Indications are that unless an amicable adjustment is reached between the B. & O. S. W. railroad and P. J. Burke of this city, condemnation proceedings may be instituted to fix the price of and obtain a right of way over the Burke lands at a point near the ice factory to a point near the B. & O. coal tipples.

The B. & O. is said to have offered Mr. Burke \$2,000 for a right of way across the lots, but Mr. Burke asked \$5,000 and the next time he was approached, raised his price to \$6,000.

Final efforts are to be made at once to adjust the difference in order to make condemnation proceedings unnecessary.

Mrs. Pearl Shears, of East Market street, this city, underwent a serious operation at Mt. Carmel Hospital, Columbus, Friday, the operation being performed by Dr. Evan Brock. Friends will be glad to learn that she is getting along very nicely.

O. D. MARCHANT ON CIVIL SERVICE BOARD

Monday afternoon Mayor Oster appointed Mr. O. D. Marchant, Elm street grocer, to membership on the Washington Civil Service Commission for the period of six years.

Mr. Marchant is a Republican and succeeds Dr. C. E. Page, whose time expired some little time ago.

The new incumbent assumes his duties at once. The other members of the board are Dr. Roy Brown and W. A. Tharp.

AUSPICIOUS OPENING OF GOOD HOPE CORN SHOW AND INSTITUTE

The eighteenth annual Farmers' Institute launched its opening session Monday morning, with President Frank E. Haines extending cordial greetings to a body of interested men and women.

Considering the bad roads the attendance for the opening session was excellent.

There was some delay in opening owing to the late arrival of State Inspectors, Mrs. Florence Willison and Mr. Frank Blackford, due to a tardy train.

Rev. Pfaltzgraf gave the invocation.

"Corn Culture Methods" was the subject of Mr. Blackford's address. Mr. Harry Middleton booked to lead the discussion.

"The Efficient Kitchen," was treated by Mrs. Willison in an address of much interest, especially to the feminine portion. Mrs. Ralph Braden was scheduled to lead the discussion.

Miss Bernice Boggs closed the morning session with a beautiful piano solo.

The afternoon session is being

conducted by the Domestic Science and Art department.

A splendid program is on for tonight; a special feature, a discussion on the Single Tax, Hon. Frank C. Parrett, Fayette's representative, answering Mr. E. W. Doty, single tax advocate.

It is expected that Tuesday's attendance will be very large, as the exceptionally fine program is worth making an effort to attend.

The Good Hope Ladies Aid society is serving dinner both days and dinners that are mighty hard to beat.

CORN SHOW.

The Corn Show and Domestic Science and Art Exhibit make excellent showing in the new Jr. O. U. A. M. hall.

There are between 80 and 90 entries in corn and the class is extremely good. H. W. Bussert is judging the corn this afternoon. Mrs. Robert Howat and Mrs. Val McCoy

are judging the exhibits of the Domestic Science and Art department.

CHICKEN THIEVES STILL AT LARGE

The police have been trying to locate chicken thieves, who, a few nights ago paid a visit to the hen roost of F. M. Fullerton, on North street, and succeeded in carrying off about 17 of his choicest fowls.

The thieves had taken every precaution to prevent the chickens making sufficient noise to arouse Mr. Fullerton, and had choked one of the fowls to death while endeavoring to suppress its squawks.

MASTERLY TALKS BY DR. CHAS. SHAW

Large and Appreciative Congregations Hear the Eminent Presbyterian Divine During Sunday.

Dr. Shaw preached two strong sermons Sunday to large congregations at the Presbyterian church, where, in the absence of Rev. Gage, he occupied the pulpit.

In the morning, the text was taken from the 91st psalm. "Thou shalt tread upon the Lion and Adder, the young Lion and the Dragon shalt thou trample under foot." He took the three creatures mentioned and types of three kinds of trouble, some or all of which will come to every child of God. We can gain the mastery, overcome them only as we habitually dwell in the secret place of the most high.

Dr. Shaw was present at the Sunday school session, and when those who decided for Christ were received by the Session of the church.

In the afternoon, he addressed the men at the Y. M. C. A. on "The Existence of God," what kind of a God He is, and how we may find him.

Saturday he preached in the tabernacle on the Way to God. Some rose for prayers and many came forward at the close of the service.

Sunday evening Dr. Shaw took for his text Mark 8:36, "What shall it profit a man if he shall gain the whole world and lose his life." Theme, Profit and Loss.

He said, in part:

"This text reminds me of an universal instinct. All merchants take an inventory at least once a year to ascertain their profit or loss. It is a wise and necessary procedure. The instinct to make the most of one's opportunities not wrong. Most men are endowed with the bump of acquisitiveness and within legitimate limits of exercise may be a blessing. This acquisitive instinct is seen in the white wings of our merchant navy as they carry the products of every clime. It is the brooding spirit over the busy whirl and hum of our factories, flooding the world's markets with our industries and gathering back the world's gold. The man diligent in business is fulfilling one law of his being. The peril lies in making these things ends in themselves and ignoring the claims of the Spirit.

"What constitutes true profit to any man? Only the things that minister to spiritual growth and char-

acter. It depends on which is first in the life, possessions or character. For to lose one's character in the attainment of anything is to lose oneself. If a man in making money for instance loses conscientiousness, truthfulness, care for what God thinks, sensitiveness of spirit, he himself, all heaven weeps. It is the loss of losses, the death of deaths, a catastrophe unequalled in extent, and unparalleled in its amount through all the universe of God. 'For what shall it profit a man if he gain the world and lose himself?'

The schedule for the week is as follows:

Monday at 7:30—"The Value of Time." No afternoon meeting.

Tuesday evening—"The Great Salvation." All day prayer meetings.

Wednesday evening—"Can God Forgive?"

Thursday evening—"The King's Business."

Friday evening—"The Judgment."

Dr. Shaw leaves for Cleveland Saturday morning, to be succeeded by Dr. J. Britain, who will give a series of Bible lectures all next week.

REFUSE IMMUNITY TO ARMED LINERS

Germany Renews Pledge In Lusitania Case.

UNARMED VESSELS SAFE

Armed Merchantmen, However, Are Held Subject to Destruction Without Warning—Submarine Campaign to Begin March First, as Outlined in Berlin Decree—Von Bernstorff Receives Instructions From Home.

Washington, Feb. 28.—An outline of Germany's position regarding her intention of torpedoing all armed enemy ships without warning after Feb. 29 has been received by Ambassador Bernstorff. This outline will be presented to Secretary Lansing without delay. As forecasted, the memorandum received may open the way for a discussion of the whole question of the distinction between merchant ships armed for defense and those armed for offense, but contrary to expectations of the state department and the embassy, the communication does not further discuss the operation of the new submarine campaign pending this discussion. The campaign will begin as scheduled on March 1.

In the memorandum just received at the German embassy the Berlin foreign office directs Ambassador Bernstorff to inform the American government that Germany is prepared to stand by her past assurances and does not regard her coming campaign against armed enemy craft as nullifying these assurances.

The attention of the American gov-

ernment is called to Germany's understanding that the Lusitania controversy in no way dealt with armed liners; that the first American note on the Lusitania case, dated May 13, 1915, specifically referred to the ship as being "unarmed."

In support of the German contention that the character of armament on merchant vessels does not insure its use merely for defense, Ambassador Bernstorff is directed to lay before Secretary Lansing two sets of evidence. The first includes alleged circumstances in about twenty-five cases investigated by the German authorities showing where enemy merchantmen have used their armament to attack German submarines and other German war craft on sight or after warning had been given the merchantmen to haul to and submit to visit and search.

The second batch of evidence which the ambassador is directed to lay before Mr. Lansing contains the copy of the British secret orders and supplementary instructions alleged by Germany to have been issued recently to all armed British merchantmen to use their defensive armament offensively against German and Austrian submarines.

Although the instructions show that Germany is unalterably opposed to any restrictions of her new submarine campaign, it is understood they are sufficiently broad to enable Ambassador Bernstorff to suggest to Mr. Lansing that Germany might modify her new campaign if the entente powers would give solemn guarantees to the United States that the defensive armament on their ships would never be used offensively. Meantime Count Von Bernstorff is directed, it is said, to urge upon the United States the advisability of warning Americans to keep off armed merchantmen of the belligerent countries.

Joint synod of Ohio, who left Columbus last December for Puttur, India, have arrived at Ceylon and have been refused admittance to their mission field. They are now at Colombo awaiting further instructions. The grounds for refusal are not known here. An appeal will be made to Washington.

PRaise AMERICAN WOMAN'S DEEDS

Duchess of Marlborough's Activity Wins Favor In London.

ACTIVE IN WAR CHARITY.

"Surely Most Charitable of Her Rank In History," Is Verdict of Londoners on Duchess Who Was Consuelo Vanderbilt of New York—Interested In Protecting Babies.

London.—"Surely the most charitable duchess in history" is the way Londoners speak of the Duchess of Marlborough, who was Miss Consuelo Vanderbilt of New York. Scarcely a day passes that her home, Sunderland House, is not thrown open for some meeting connected with a war charity, and upon the occasions when the duchess is free from the duty of receiving in her home she appears elsewhere for the same object of meeting the needs of the poor and the helpless.

The duchess has been known as one of the tallest women at court, and her elder son, the Marquis of Blandford, is resembling her in this respect. At eighteen he is over six feet tall, a handsome, intelligent young man, who has been popular and studious at Eton. It is thought that he will enter the army soon.

His younger brother, Lord Ivor Charles Spencer Churchill, is a year younger and still somewhat delicate in health. Both of the sons have sometimes accompanied the duchess on her rounds of charity. It is a notable commentary on war conditions that the homes for prisoners' wives, generously supported by the duchess, have been closed because there are no women who need them.

The protection of the babies by the health authorities is considered her special philanthropic interest, and she has frequently spoken in public as well as writing to the newspapers to advocate the recognition of the Woman's Municipal party in filling vacancies on the metropolitan borough councils in order to secure the appointment of trained women to take charge of the health of the babies. Entertainments for the purpose of bringing before the public the needs of the children of the poor have often enjoyed the advantage of appealing to fashionable purses at her house.

cent notable event at Sunderland House, followed a few days later by a lecture by Mr. John Fortescue on "Heroes and Heroines of War."

In the interval the duchess was one of the prominent figures at the Christmas in wartime bazaar, held at Albert hall for the benefit of the professional classes and which was opened by Princess Alexandra of Teck. Ladies in Serbian and Russian costumes presided at the booths and were generously patronized by a big crowd, the success of the bazaar being assured in advance by the co-operation of the Duchess of Norfolk, the Duchess of Marlborough, the Duchess of Sutherland, Mme. Sze, the diminutive and charming wife of the Chinese ambassador, and by the lord mayor of London and his official family.

A Nickname For Barrett.

Lawrence Barrett, the tragedian, was subject to dyspepsia, and when he was suffering from that disorder he was cold and distant toward his company. One irreverent fellow always refused, however, to be suppressed. He said one day: "Just look at Cassius. He looks as solemn and righteous as if he'd swallowed the sword of justice. Let's call him the Scabbard." And the Scabbard he was—out of his hearing—for the rest of that season.

BECOMES BRIDE AFTER PHONE INTRODUCTION

Theater Party Culminates In Bachelor Girl's Marriage.

Boston.—Whatever may be the status of the telephone introduction in books of etiquette—formal, informal or distinctly bohemian—it has led to at least one recent betrothal and marriage in high social circles. Recently Alfred Borden, son of Mr. and Mrs. Spencer Borden of Fall River, was content with his bachelorhood.

That was before he had heard over the wire the sweet voice of Miss Susan B. Ellis of Surrey, England.

He came to hear it in this way: One night he had "called up" from his father's cotton mill his friend, Mrs. Humphreys, and asked her to go with him to a theater. Mrs. Humphreys had a headache, or a previous engagement, or something of equal importance, and couldn't go.

It was a pity, though, to leave Mr. Borden a prey to the ennui of a lonely bachelor evening, and then the seats too! Mrs. Humphreys would do her best to fix it.

Not many moments later Mr. Borden was being introduced through the receiver to Mrs. Humphreys' sister, Miss Ellis, whom Mr. Borden had, strangely enough, never met, in spite of her success as "the bachelor girl" of Southampton, N. Y., last summer.

To make a long story short, Miss Ellis and Mr. Borden went to the theater, taking Cupid along as a supercargo in the taxi. The little fellow did the work well. Only a few weeks later their engagement was announced, and the couple were married in the chapel of St. George's church, stuyvesant square, New York.

The bride's father was present, having come over from England for the ceremony. After their wedding trip Mr. and Mrs. Borden will live at Short Hills, N. J.

PLUMBERS MUSTN'T RIDE.

Union Forbids Them to Go on Bicycles For Short Tasks.

Elkhart, Ind.—"We walk!" has been the slogan of Elkhart journeyman plumbers since the passing of a rule by the union forbidding the use of bicycle or motorcycle in going to and from "short jobs."

The penalty is a \$5 fine. Men are permitted under the rule to ride to work for all day tasks and to use wheels at the noon lunch hour, but they must not make intervening trips

on wheels. They may be passengers at any time in vehicles provided by their regular employers.

The rule was the result of a boast at a union meeting of one of the men that he had completed an unusually large number of "short jobs" during that particular day because he used a bicycle.

DIDN'T KNOW HE WAS RICH.

Mother Left \$50,000 to Fireman Four Years Ago, but He Wasn't Curious. Philadelphia.—John T. Lammion, for more than twenty years a member of the Philadelphia fire department, learned for the first time he had inherited a fortune from his mother, who died four years ago here.

The exact amount has not been definitely ascertained, but is estimated at about \$50,000. Most of it is in bonds, deeds, mortgages and bank deposits, besides a large amount of cash in a safe deposit box in the vaults of the Fidelity Trust company.

"John never was curious," said several of his brother firemen afterward. "It is likely that when his mother died he just moved into her home and never bothered about going through her personal effects."

Before 1899 the department of agriculture was simply a bureau. Before the Fiftieth congress adjourned it passed a bill making the bureau a department and the commissioner of agriculture a secretary and a member of the cabinet.

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad, by George Storm, a newsboy. Grown to young womanhood Helen makes a spectacular double rescue of Storm, now a freight fireman, and of her father and his friends, Amos Rhinelander, financier, and Robert Seagrue, promoter, from a threatened collision between a passenger train and a runaway freight. Safebreakers employed by Seagrue and Capelle, his lawyer, interrupted by Helen while stealing General Holmes' survey plans of the cut-off line for the Tidewater, fatally wound General Holmes and escape. Storm and Helen chase the murderers on a light engine and capture them. Spike has hidden the plans and manages to inform Seagrue where they are cached. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. Seagrue helps Spike to break jail and uses him to get fire to a powder train hauled by Storm's engine. Helen saves Storm from a horrible death.

CHAPTER IV.

When Helen Holmes took the day key at Signal the little office had already passed from the quiet kind to the remorselessly active kind of those small war stations that drive innocent men mad. Two rival lines maintaining large construction camps and getting all their supplies through Signal station, were engaged in a race to build a mountain cut-off—and a considerable one. Despite all the help Lyons, the overworked agent, could give Helen, she found the tasks of her day about all that her strength would compass.

Nor could Helen, situated as she was, escape occasional office visits from Seagrue, whose activity as head of the opposition construction camp was unabated. Going over to the station one day to watch his men unload a shipment of material, he stepped into the office ostensibly to make inquiries—in reality to steal a few minutes with Helen Holmes, whom he found busy, but alone.

Seagrue spoke blandly: "I hear you're becoming quite a railroad expert." She made no effort to reply. "Getting really clever at the key, Lyons says." Helen, entering waybills, went on with her writing. "By the way," asked Seagrue, evenly, "any word this morning from our steam shovel?"

She looked toward the window—the local freight train had just pulled in. "It may be out there now, on No. 85." Seagrue seemed in no haste to investigate, and Helen had almost lost hope of any diversion in that direction, when the office door opened and George Storm walked in.

He was just out of his engine cab, and deliberate and composed as usual, but his eyes, lighting to greet Helen, cooled when he saw Seagrue. Storm nodded curtly toward him and was greeted in kind. Then the stalwart engine man turned his attention to Helen, and Seagrue was soon made to feel the pangs of being distinctly third in the situation and without an anesthetic.

"And the best of it all is," said Storm at length to Helen, "this is my last run on local freights. I am assigned tonight to the Limited." Helen lifted her eyebrows in surprise: "Some run they're giving you!"

Seagrue took the chance to join sarcastically in: "Right in line for chief of motive power, eh, Storm?" Storm was not to be disturbed. He only regarded Seagrue calmly for a moment. Then he turned good-naturedly to thank Helen. While soldiering agreeably at this task, his fireman intruded on the scene long enough to remind him they were waiting for him to get out. Storm, with an expression of disgust at the interruption, nodded gruffly to the fireman, concluded his talk with Helen and walked out. Helen rose to go out on

the platform also. Seagrue intervened to distract her attention. It was useless. She must deliver a message, she said, to the conductor, and Seagrue, peeved, was left to stay with himself or unwillingly to follow. He followed; but even then it was only to find himself watching Storm's good-bys waved to Helen from the cab. And she saw them, too; nothing escaped her attention.

Rhinelander, in charge of the Tidewater line camp, was pushing Seagrue closely in the construction race and as the head of a big crew of men imbued with his own spirit was laughing at obstacles that made Seagrue's head ache; and with equipment actually somewhat inferior was forging daily ahead of his rival. But the mail now brought him a note from the chairman of the executive committee of his board that almost paralyzed his activities.

"Dear Rhinelander: Our survey party advise that they cannot re-locate the pass over the Superstition range. Unless you can furnish a survey of the cut-off pass before the first, our people will withdraw their financial support. BOWERS."

Amos Rhinelander, sitting at his dusty and littered desk, stared at the abrupt communication. Bowers was his friend; the executive committee of the board were with him—this he felt assured of. But somewhere influences must be at work against him. He suspected Capelle, still a board member, and a continual intriguer. Capelle was a master worker in underground effects and besides being Seagrue's own attorney, was himself heavily interested in opposing enterprises of the Coast line. To throttle Rhinelander in the construction effort begun by Helen's own father before his death, was to advance his own interests as well as those of his client. Rhinelander's decision as to what must be done to meet this opposition was prompt.

MOTHER FINDS SON AFTER LONG SEARCH

Father Stole Him, Then Was Adopted From Home.

Webster City, Ia.—Stolen from his cradle by his own father thirty years ago, later placed in a children's home in Des Moines and adopted by a family at Lehigh, David Brundage now finds himself the heir to an estate, all because his mother during all these thirty years has never once ceased her search for him.

Brundage is now thirty-two years of age and makes his home in Lehigh with his foster parents, Mr. and Mrs. Joe Brundage. Mrs. C. Thompson of Randall, Wash., is the mother in the case, and a letter just received from her by the Brundage family states that she located her son only recently. The mother pleads with the foster parents to tell her something of her son and his whereabouts, whether he is dead or alive and if he is happy.

Mr. and Mrs. Brundage adopted the baby in 1887. He was a healthy youngster and grew up with the other Brundage children. Many people in and about Lehigh did not even know he was an adopted child. Every attention was lavished upon him. While young Brundage is anxious to learn all he can of his mother and other blood relatives, yet he signifies his intention to remain with his affectionate foster parents.

A. E. Watkins, a Randall (Wash.) attorney, finally located the boy for his mother, and a letter to him conveys the information that an estate is held in trust for young Brundage. As yet, however, the Brundage family has not been apprised of the amount. It is likely that Brundage will make a visit to his mother.

MORE GROUND GAINED BY PLUNGING GERMANS

Take Two Positions In the Fighting at Verdun.

BIG BATTLE STILL RAGES

French Make Gallant Effort to Recover Fort Douaumont, but According to Berlin All Attacks Failed. Fifteen Thousand Prisoners Taken by the Germans—Operations in Other War Zones.

London, Feb. 28.—The great battle centering around Verdun, in which 500,000 men are engaged, is still being fought at some points with almost the same fury as featured it several days ago. At other points the intensity of the attacks has slackened somewhat.

Between the Douaumont heights and the plateau north of the village of Vaux, to the east, the Germans here concentrated their efforts in a strong attack. Fort Douaumont is still occupied by small German forces. The French are closing in on this position on three sides and announce that the German force is maintaining itself in the position only with difficulty.

The very unfavorable weather conditions, with a heavy fall of snow, may be one reason for the lessening of the force of the German attack; the dispatches from the front indicate

that heavy losses may have had an effect.

Five separate attacks have been made by the French on Fort Douaumont in an effort to retake the position, the German war office says. Each attack was made by fresh troops, but all five were repulsed with heavy losses to the French forces. The number of unwounded French prisoners taken in the seven days of the battle, the Berlin statement says, has reached 15,000.

Finding the position untenable because of the fire of both artilleries, the French have evacuated the Cote de Talou, to the west of Douaumont and the position is now unoccupied, the French say, by either side.

In the official statement received from Berlin, the German war office announces that the Germans pressing ahead to the west of Douaumont have reached Nave, on the southern border of the wooded district northeast of Bras, taking Champneuville and the Cote de Talou on the way. To the east of Douaumont the Germans announce the storming of extended fortified works at Haraumont.

The Germans have begun an attack also on Verdun from the east, as well as from the north, throwing sufficient forces against the French line in the region of Moranville and Blanzee, on the Woerwe plain, to force the French advanced posts to fall back. The Germans followed up the attack in an effort to reach Hill 255. These attempts were checked.

There has been considerable activity along the Russian front around Riga, Friedrichstadt and Iloukist.

In the Caucasus region, despite the heavy snow, which at places is breast deep, the Russians are continuing vigorously their pursuit of the Turks.

a "highbrow" as one who is not practical enough, they agreed with the sentiment.

"Normal brows" are the ideal of the engineering college at the University of Minnesota, where the most practical students are believed to foregather, according to Dean Francis C. Shenehon. He said the students come to the college from high school with "lowbrow" tendencies and that the college tries to take the "lowbrowism" out of them before they are graduated.

"Lowbrows," according to Dean Shenehon, are more in danger of getting out of date than are the "highbrows." Practice changes and principles do not, he said, so the man who is too practical easily may be left behind.

"There's something to what he says," admitted J. M. Thomas, head of the rhetoric department, "but I don't like his English. Most of the students go directly into a professional school, or if they take a course in the academic college it is to train them for some special work."

The inference on the part of all the Minnesota professors was that entering students are distinctly in the "lowbrow" classification, and the work of the faculty is to elevate their foreheads before they escape with diplomas.

FLIRTING INVITED BY FUR TOPPED SHOES

Oklahoma Woman Demands Ordinance Stopping It.

Oklahoma City, Okla.—Mayor Overholser closed all the gambling houses in Oklahoma City and drove the liquor dealers out of business. Now he is expected to inaugurate other reforms.

"Why don't you stop this flirthing that is going on all the time?" asked a woman of sour visage who visited the mayor's office. The mayor said he did not know there had been any flirthing.

"Well, there has and there is," said the woman. "It is going on now, all the time. I see it when I am downtown, and you could, too, if you looked."

"Who is doing it?" inquired the mayor.

"Men and women, boys and girls," replied the visitor, "and the girls are just as bad as the men. I can show you girls on the streets right now who ought to be arrested."

"In what way do they flirt?" asked the patient mayor.

"By looking sideways at the men and by wearing fur topped shoes and dresses halfway up to their knees," said the woman. "You've seen them, haven't you? And you know they're disgraceful, don't you?"

Mayor Overholser said there was no ordinance regulating women's attire to that extent.

"roughneck." The "lowbrow" was too practical, just as the "highbrow" was not practical enough.

Jordan's subject was "A Man," and during the course of his talk he declared it was a good thing to learn to be in the minority.

The salient points of his address were seriously studied by faculty members at the University of Minnesota, and a dispatch from Minneapolis said they heartily endorsed Mr. Jordan's statements and that he expressed the general opinion of the faculty members.

Some of them, however, took exception to the way the Californian put it; but, accepting his definition of "lowbrow" as one who is too practical and

NEW GROUNDHOG YARN.

Did Not Re-enter Hole Because It Was Frozen to Death.

Norwich, Conn.—Byron P. Fox, an Uncasville farmer, appeared in Norwich recently with a story that may go to show why Mr. Groundhog failed so miserably as a weather prognosticator this year. According to Mr. Fox, who admitted that until recently his confidence had never been shaken in the groundhog prophecy, a fine specimen of the woodchuck was found frozen to death near Glasbrenner's livery and garage in Uncasville recently.

"It must have been layin' near the road there for over a week," said Mr. Fox. "Cose, it didn't see its shadow the day it came out, and I suppose the critter was too blained proud to crawl back afterward. Anyhow, it stayed out and was frozen. No wonder we've freezin' weather."

Do Something for your Cold.

Do not let it wear you out and encourage sickness. Take Dr. King's New Discovery. You will get instant relief.

Most of us neglect coughs and colds. We brush suggestions aside with the remark "I'll be better soon," and oftentimes we do get better. However, when that cough or cold gets a hold, it usually means annoyance, interference with our work and often a spell of sickness follows. Isn't it better immediately to check that cold and ease the cough? Dr. King's New Discovery does it. Search as you will, you will not find a better remedy.

Dr. King's New Discovery is made of Pine Tar mixed with soothing balsams and laxatives. It's antiseptic and kills the germs, allays the cold-fever and soothes the irritated, inflamed throat. The very first dose gives you relief. You cough with less strain. And if you have a hacking or dry night cough, grateful relief follows and you soon drop into a restful and refreshing sleep. Get a bottle to-day and let Dr. King's New Discovery be your cold and cough doctor. At all druggists.

TUESDAY'S GAME OF BASKET BALL BRINGS STATEMENT

Mr. Earl Peterson, captain of the "Baptists" basketball team winners of the championship cup in the Sunday school league when asked Monday his opinion as to the contest Tuesday night at the "Y" gymnasium when his team will clash with a team picked by Rudolph Schlabach said:

The challenge which was issued Friday evening to Mr. Schlabach over my signature was promulgated by the managers of the Sunday School League without my knowledge. I knew nothing of the challenge until I read it in The Herald. Naturally I assumed responsibility and was willing to go ahead with the game. Of course we on the Baptist team realize that the games played in league season just closed were all hard fought contests and our margin of victory was a narrow one. The other teams are strong and had I been looking for certain victory Tuesday night it is not likely that the challenge would have been so sweeping. However, as the whole matter was "set up" on both Mr. Schlabach and myself we have accepted in good faith and will go through with it and so far as the Baptists are concerned we will give the "picked team" the best we have."

Mr. W. W. Hamilton, president of the board of managers, when seen regarding Mr. Peterson's statement verified it absolutely so far as the issuing of the challenge was concerned.

Mr. Schlabach has consented to allow the Baptists to choose one man to add to their team from some of the other teams of the league.

The choice will be announced just before the game begins and after the cup has been presented to the winners.

FIFTY-EIGHT HIT "SAWDUST TRAIL"

Previous records at the Sunnyside tabernacle were broken again Sunday night when 58 people hit the sawdust trail. Ten came out Saturday night and three Sunday afternoon, making a total of 71 in the three services, and a grand total of 801 in the 7 weeks since the beginning of the meetings.

Evangelist Willhite said that if 25 came forward last night he would continue the meetings, and it was announced last night that there would be meeting again Monday night, and the indications now are that the meetings will last all this week if the wonderful interest keeps up.

Prof. J. W. Troy, who has had charge of the music, made an interesting talk to Christians Sunday afternoon. Evangelist Willhite and Rev. Stone also talked. At the night meeting Rev. Dalbey asked the privilege of making a few remarks in behalf of a liberal thank offering for Evangelist Willhite. In all about \$120 was raised at the two meetings.

Evangelist Willhite made a great talk Sunday night on "What I Think of Washington C. H."

RECEIVES WORD OF BROTHER'S DEATH

Mr. Joseph Murphy received a telegram Monday morning announcing the death of his brother, Mr. Mills C. Murphy, at his home in Independence, Kansas.

About twenty years ago Mr. Murphy was employed at the Dahl-Millikan wholesale grocery house in this city.

His death will be learned with regret by former friends in this city.

FLAG PRESENTED WITH SERVICES

Representatives of the John M. Bell—W. R. C.—attended the services at St. Andrew's Episcopal church Sunday morning and presented the silk flag previously placed in the church.

In making the presentation, Mrs. F. G. Carpenter, Patriotic Instructor, spoke of the loyalty with which our city ministers champion every cause that stands for good citizenship, and are always found in the front ranks in all patriotic endeavor. All the patriotic orders appreciate the patriotic sentiment engendered in the local churches and Sunday schools and believe that our country's flag should form a part of their equipment for service.

In appreciation of Rev. Prosser's interest in the work of the patriotic orders they took pleasure in presenting the flag to St. Andrews.

Rev. Prosser's response was beautiful in sentiment and sincere in appreciation. Mrs. Carpenter was accompanied by Mrs. Martin Hamm, president; Mrs. Sarah E. Sollars, Sr. vice, and Mrs. Valentine Hoppess, flag bearer.
